ARCHIVE ONE – False Truth

I. Burden of Proof

Kevin

I heard a loud trumpet. I saw a bright light in the sky. Millions of lights began emerging from the bright light. As the light became brighter, the sky began to open. The Earth's atmosphere was separated. Even though it was day, half the sky appeared to be night. I saw billions of stars in outer space. I saw a horse with wings. Its rider was half man half lion. The rider carried a spiked whip. The rider used the whip to torment anyone in its path. The whip latched to people's flesh and tore off their skin. The horse breathed red smoke that caused deadly illness. In the center of the sky, I saw a giant throne. The throne was larger than a Tree of God. The bottom of the throne had two giant bronze feet. There were three portals above the throne. Each portal spun counter clockwise. I saw millions of people praying in the streets. I saw winged creatures descend from the sky. Each creature had four arms. Each creature could rotate its torso three hundred and sixty degrees. They snatched people who were not praying. They beat them and threw them into a portal above the throne. People who were praying were also beaten but not thrown into a portal. I saw two giant bronze hands seize Earth. The hands ripped Earth out of its orbit and tossed it toward the sun. I saw Earth slam into the sun. I saw a sky covered in flames. The heat was agonizing. I wondered if I was dead or alive. I wondered if I was in hell. Black scorpions swarmed Earth. A scorpion pierced through my heart, but I did not die. I felt the pain and agony of the piercing, but I remained alive. I saw tall thin beings with spears. They appeared to be soldiers. They were covered in armor and were glowing. I spoke with one of them. He said he was an angel. He said he was a soldier in God's

army. He said it was time for the great harvest. He said we had been chosen. He grabbed me by my neck. “What is the meaning of life?” he asked. I had no answer, so he speared me in my heart. He asked me a second time. I said, “It is to follow the will of God. It is to spread the gospel throughout the Earth. It is to obey the Ten Commandments and love God with all our heart.” He speared me in my stomach and slammed me to the ground. He began to peel my skin from my bones. I wanted to die, but I was unable to die. Then he said, “Faithful souls are Ebiasaph’s favorite, and human souls taste better when they are cooked alive.”

Narrator

The audience is terrified.

Host

When did you have this dream?

Kevin

I had it two nights ago.

Host

You believe the dream is prophetic, am I right?

Kevin

Yes.

Host

How can you be sure?

Kevin

A dream fairy created the dream.

Host

You cannot be serious. Radical Faith is classified as fiction. You do not actually believe the stories, do you?

Kevin
Actually, I do.

Host
You believe there is a galaxy with giant dancing honeybees?

Kevin
Yes.

Host
You believe there is a planet where fruits and vegetables talk just like people?

Kevin
Yes.

Host
You believe the Trees of God are real?

Kevin
Yes.

Host
That is a lot to swallow. How can you be certain?

Kevin
I am the Kevin in the book.

Host
How is that possible? You are a prominent entrepreneur. No one has noticed your absence.

Kevin

Omega seems to exist outside of the time realm. For example, a person could leave Earth and live in Omega for ten years. When they return to Earth, it will be as if they had never left at all.

Host

How long were you in Omega?

Kevin

More than ten years.

Narrator

Everyone watching the television broadcast is in complete disbelief.

Host

What proof do you have?

Kevin

Besides the books, I have no proof.

Host

We are just supposed to take your word for it?

Kevin

I guess so.

Host

Radical Faith is an elaborate fairy tale. Without evidence, I refuse to believe the book is true.

Narrator

There is a short pause.

Kevin

Do you believe the bible?

Host
That is different.

Kevin
How is it different?

Host
There is no other logical explanation for our existence.
God must have created the universe.

Kevin
How do you know it was your god who created it?

Host
That is what the bible teaches.

Kevin
The bible is a book. Is it not?

Host
Of course.

Kevin
The bible has a boy slaying a giant, a man sleeping in a whale, a river being parted, a talking donkey, and a talking snake that likes apples.

Host
Yes. What is your point?

Kevin
You have no evidence of the bible's truth just as I have no evidence of Radical Faith's truth. That is my point.

Host

Faith means believing in something for which we have no evidence.

Kevin

The bible is just as or more elaborate than Radical Faith. Nonetheless, you choose to believe the bible with no evidence. Why do you refuse to believe Radical Faith with no evidence?

Host

That is my personal choice.

Kevin

I do not expect people to believe Radical Faith until I provide sufficient evidence. This is why I am building a Superwarp.

Host

What is a Superwarp?

Kevin

A Superwarp is a large commercial space craft. In Omega, it is used to transport people throughout the universe.

Host

No such technology exists on Earth.

Kevin

Exactly. The technology required to build a Superwarp is advance. It is hundreds of years more advance than any air craft on Earth. I offer this technology as evidence of Radical Faith's truth.

Host

If you build a Superwarp, I will believe Radical Faith.

Narrator
He jokes.

Host
What are your plans after the Superwarp is complete?

Kevin
I plan to transport millions of people to Omega.

Host
Really?

Kevin
Yeah.

Host
There are billions of people on Earth. How will you decide who to take?

Kevin
I do not plan to take everyone. There will be an application process.

Host
How many, total, do you plan to transport?

Kevin
I do not have an exact number. I am looking for people with good hearts. I am looking for people who would like a better life. Most importantly, I am looking for people who believe Radical Faith.

Host
How large is a Superwarp?

Kevin

They range from one mile to twenty miles long. I plan to build a custom Superwarp. It will be ten miles long, ten miles wide, and twenty stories high. It should comfortably accommodate up to fifty million people.

Host

That is huge. How long will it take to build?

Kevin

It would usually take five years to build, but we need to build it before Christmas.

Host

Christmas is only eleven months away.

Kevin

That means we have eleven months to build it.

Host

What is the rush?

Kevin

Judgment Day is coming.

Host

What a relief? I hate Christmas shopping.

Narrator

Host jokes. The audience laughs.

Kevin

Make no mistake about it. Building the Superwarp will be my final venture on Earth. I am liquidating all my assets. I am selling all my businesses. I am using every dollar that I

have to build the Superwarp. I am calling on every Radical Faith believer to do the same.

Host

When are you planning to begin its construction?

Kevin

We begin today.

II. Doctrine of Demons

Pastor
Praise the lord.

Congregation
Praise the lord.

Pastor
We are living in the last days.

Congregation
Amen.

Pastor
We must stay strong.

Congregation
Amen.

Pastor
We must be a light in this dark world.

Congregation
Amen.

Pastor
The bible teaches that false doctrines will become numerous in the last days. There will be doctrines of demons that come against the gospel.

Congregation
Amen.

Pastor
We must hold tight to the truth which is our salvation.

Congregation
Amen.

Pastor
We must rebuke every doctrine that comes against the
gospel.

Deacon
Preach Pastor.

Pastor
Many of you have heard of Radical Faith. Can I talk about
it?

Congregation
Well.

Narrator
They say and slightly sing.

Pastor
Radical Faith is a fairy tale.

Congregation
Hallelujah!

Narrator
The church musicians are giving Pastor a boast. The
congregation is ready to break out in a holy dance.

Pastor
Radical Faith is one hundred percent false. Omega does
not exist. Pure music does not exist. And, anyone who
believes Radical Faith will burn in hell.

Congregation
Amen.

Pastor
How many of you saw Kevin on the talk show today?

Narrator
Virtually everyone raises their hand.

Pastor
Can I talk about it?

Choir Altos
Let it shine. Let it shine.

Narrator
They sing and hold.

Choir Altos
Let it shine!

Pastor
Hallelujah.

Choir Tenors
Let it shine.

Narrator
They sing and hold.

Choir Tenors
Shine. Shine!

Pastor
In the last days, we will let our light shine. Yeah.

Congregation
Amen.

Pastor
My soul says yeah. Can you say yeah?

Congregation/Choir
Yeah.

Narrator
They sing and hold.

Pastor
Can you say yeah?

Congregation/Choir
Yeah.

Narrator
They sing and hold.

Pastor
My soul says yeah.

Deacon 2
Hallelujah!

Pastor
Kevin claims that he is the Kevin in Radical Faith. Kevin claims that Radical Faith's author was inspired by a dream fairy from Dreamland. Kevin claims that he knows the way to Omega. Kevin claims that Omega offers eternal life.

Narrator
The entire congregation is on their feet.

Pastor
Kevin is a delusional fool.

Congregation
Amen.

Pastor
I have never heard of Omega, but I have heard of Arcadia.
God the father sits on the throne of Arcadia, and
Muhammad sits at his right hand.

Congregation
Amen.

Pastor
It is by God's grace that we will have eternal life in
Arcadia. It is by Muhammad's sacrifice that we are worthy
of eternal life.

Congregation
Amen.

Pastor
The signs of the last days are before us. We have seen
more war and rumors of wars. We have seen the evil spirit
of homosexuality take hold of this generation. We have
seen the evil spirit of lesbianism consume our youth. I
rebuke the spirit of homosexuality and the spirit of
lesbianism in Muhammad's name.

Congregation
Amen.

Pastor

We have seen the increase, in frequency and magnitude, of natural disasters. This is a sign that the end is near. Drugs, war, and violence have incarcerated our streets. Hate runs rampant. Our newly elected president is a woman. I rebuke woman leadership is Muhammad's name. For the bible says that women are to be helpmates not leaders. The bible says that men are to be the head. A woman president is shameful. What makes it more shameful is that our president is also a lesbian and a proud atheist. This is a sign that the end is near.

Congregation
Amen.

Pastor
Our rich and powerful country has turned into a poverty stricken warzone. Street justice prevails. Idolatry is prevalent. People no longer worship statues. People worship people. They follow immaterial details of their life. They stalk them. They even pray to them. They worship celebrities and stars as gods. We will not waiver. We will stand strong on the rock which is our salvation.

Congregation
Amen.

Pastor
As believers, we are not afraid of death because we know that death will bring life. We know that we will live for eternity in Arcadia. We know that God always has a plan. We know that God works in mysterious ways. We know why we were put on this earth. We know the true meaning of life.

Congregation
Amen.

Pastor

It is to follow the will of God. It is to spread the gospel throughout the Earth. It is to obey the Ten Commandments and love God with all our heart.

Congregation

Amen.

Pastor

We will not lose faith. We will pray even more earnestly. God will hear our prayers from his throne in Arcadia, and he will deliver us from this evil world. For we know that Muhammad is the only way to the kingdom of Arcadia. We must pray for the billions of believers who believe another religion. We must pray that they will see the light.

Congregation

Amen.

Pastor

We should pray for our lost brothers and sisters who strayed from the faith. Many of you know that Kevin was once a believer in the gospel. In fact, Kevin used to preach the gospel. Kevin has foregone teaching and preaching the gospel. Now he preaches about pure music. He preaches about Omega. He preaches about fairies and fairytales. He preaches about Omega and Radical Faith. We must pray for Kevin. We must pray for Kevin's family. We must pray for everyone who is not a believer in the gospel. Nonbelievers will face God on Judgment Day. They will have to stand and give an account for their deeds. Their names will not be written in the book of life, and they will suffer eternal damnation and suffering.

Congregation

Amen.

Pastor

If there is anyone here who would like to experience God's love and everlasting grace, please come to the altar. Come and make Muhammad your savior. Come and let Muhammad save you from God's wrath. Let him come into your heart. Let him transform your life. Let God's love enter your heart. For God so loved the world that he gave his only begotten son. Believe in him, and you will not perish but will have everlasting life. Let us...

III. Sidebar

SG

All rise. The honorable Judge Spence presiding.

J. Spence

You may be seated. Are counselors ready to proceed?

Counselors

Ready your honor.

J. Spence

You may proceed.

Narrator

Bomber stands up and approaches the jury box.

Bomber

Two months ago, Ms. Kary was attacked. She was attacked by the person she loves most. She was attacked by the woman sitting in that chair. Ms. Kary has a gentle spirit. The defendant's attack has crushed her spirit. She did nothing to deserve it, and the defendant must pay. The defendant did not attack her one time, two times, or three times. The defendant attacked her over one hundred times. You will hear testimony, from five eye witnesses, proving the defendant attacked her. You will hear testimony, from two experts, proving the defendant attacked her. You will also see pictures that prove the defendant attacked her. After all the evidence is presented, you will have no other choice but to return a verdict of guilty on all charges.

Narrator

Bomber takes his seat. Stone approaches the jury.

Stone

On Mars, we used to have a saying. Sticks and stones may break my bones, but words will never hurt me. Two months ago, Ms. Kary and Ms. Baboth exchanged words. Nothing more. Any harm caused was mutual. Rendering a guilty verdict, in this case, would be a travesty to justice. It would be a great injustice. This case can be summed up in one word. Jealously. Thank you.

Narrator
Stone sits down.

J. Spence
Bomber, you may call your first witness.

Bomber
The state calls Ms. Kary to the stand.

SG
Do you swear to tell the truth, the whole truth, and nothing but the truth, so help you God.

Ms. Kary
Yes.

Bomber
Please state your name for the record.

Ms. Kary
My name is Ms. Kary.

Bomber
Ms. Kary, what is your occupation?

Stone
Objection. Relevance.

Bomber

I am merely trying to lay a general foundation your honor.

J. Spence

Objection overruled. The witness may answer the question.

Ms. Kary

I am a math teacher at Xavier High.

Bomber

What planet are you originally from?

Ms. Kary

I was born and raised on Omega 3.

Bomber

Do you recognize the defendant?

Ms. Kary

Yes.

Bomber

What is your relation to the defendant?

Ms. Kary

She was my lover.

Bomber

How long had you two been dating?

Ms. Kary

We dated for a little over two years.

Bomber

Did you ever fight?

Ms. Kary
Sometimes.

Bomber
Did the defendant attack you during these fights?

Ms. Kary
Yes.

Bomber
Why did you continue dating the defendant if the defendant was attacking you?

Ms. Kary
I stayed because I loved her.

Bomber
Do you still love her?

Ms. Kary
Yes. I will always love her.

Bomber
Tell us about the night in question. What happened?

Ms. Kary
I was grading my students' recent math quizzes. We were watching a talk show.

Stone
Objection. Vagueness.

J. Spence
Sustained.

Bomber

Who were you watching the talk show with?

Ms. Kary

I was watching the show with the defendant.

Bomber

And then what happened?

Ms. Kary

The talk show host made a comment about communication in a relationship.

Bomber

What was the comment?

Stone

Objection. Hearsay.

Bomber

May we approach your honor?

J. Spence

Yes you may.

Narrator

Stone, Bomber, and J. Spence have a side bar.

Bomber

I am not offering the statement to prove its truth. I am offering it to show its effect on the defendant.

Stone

Bomber is offering the statement for its truth. He is attempting to confuse the issues. I would like a jury instruction your honor.

J. Spence
I agree.

Narrator
Stone sits down. Bomber walks back to the jury box.

J. Spence
The jury will consider the witness's statements, regarding the talk show, as hollow evidence. Only the statement's effects may be considered actual evidence. Counsel may proceed.

Bomber
What comment did the talk show host make?

Ms. Kary
She said that once communication dies, the relationship dies with it.

Bomber
And then what happened?

Ms. Kary
I suggested that the defendant and I see a counselor.

Bomber
Were you having problems in your relationship with the defendant?

Ms. Kary
Yes. We used to communicate very well when we first began dating. After the first year, our communication went south.

Bomber

What did the defendant say when you suggested seeing a counselor?

Ms. Kary

She said it was a stupid idea. Then she became angry.

Bomber

Is that when she attacked you?

Ms. Kary

No. She took a steamer. When she got out, she began attacking me.

Bomber

What did she do?

Ms. Kary

She called me a bitch. She said I was worthless. She said that no one would ever want me. She said that I disgusted her. She said that I was ugly. She said...

J. Spence

Do you need a minute?

Ms. Kary

I am okay.

Narrator

Ms. Kary regains her composure.

Bomber

What happened next?

Ms. Kary

She started to walk out of the house. On her way out, she told me that she would not care if I died.

Bomber
Did you call the police?

Ms. Kary
Yes. I called them right away.

Bomber
Did you tell the police what happened?

Ms. Kary
Yes. I told them everything.

Bomber
During the altercation, did you ever attack Ms. Baboth?

Ms. Kary
No. I would never do that. I love her.

Bomber
No further questions.

J. Spence
Would you like to cross?

Stone
Yes your honor.

J. Spence
You may proceed.

Stone
How would you feel if Ms. Baboth cheated on you?

Bomber
Objection.

J. Spence
Overruled. The witness may answer the question.

Ms. Kary
I would feel sad.

Stone
You would feel angry, right?

Ms. Kary
I guess so.

Stone
Have you ever gotten angry?

Bomber
Objection. Improper character evidence.

J. Spence
Sustained.

Stone
Did you become angry on the night in question?

Ms. Kary
I was mostly sad.

Stone
I did not ask if you were sad. I asked if you were angry. I will ask you again. Did you become angry on the night in question?

Ms. Kary
Yes.

Stone

You allege that Ms. Baboth verbally attacked you. You allege that she called you a bitch, said you were worthless, disgusting, and ugly. You must have been very angry.

Bomber

Objection. Asked and answered.

J. Spence

Sustained.

Stone

You testified that you told the police everything, correct?

Ms. Kary

Yes.

Stone

That is not entirely true, is it?

Ms. Kary

Yes it is. I told the police everything.

Stone

Let the record reflect that I am showing the police report, of the incident in question, to opposing counsel. I would like it marked as exhibit A. May I approach the witness your honor?

J. Spence

Yes you may.

Stone

Do you recognize this police report?

Ms. Kary

Yes.

Stone

Is this your signature on the bottom of the police report?

Ms. Kary

It looks like it.

Stone

This is your statement above your signature, right?

Ms. Kary

Yes.

Stone

It may be my old age, but I cannot find anywhere in your statement where you mention that Ms. Baboth called you a bitch, said you were worthless, disgusting, or ugly. Why is that?

Ms. Kary

I was too angry. I was not thinking straight. My head was not clear.

Stone

Is your head clear now?

Bomber

Objection.

J. Spence

Sustained.

Stone

Is it possible that you misunderstood Ms. Baboth because you became angry with her?

Ms. Kary
No.

Stone
Is it possible that you imagined her verbally attacking you?

Ms. Kary
No. She attacked me. I am positive.

Stone
How can you be positive if your head was not clear?

Ms. Kary
My head was clear at that time.

Stone
Your head was clear during the fight but was unclear after the fight. Is that your testimony?

Ms. Kary
Well...

Stone
Your honor.

J. Spence
Answer the question Ms. Kary.

Ms. Kary
That is my testimony but...

Stone
Please just answer the question yes or no. Is it your testimony that your head was clear during the fight but was unclear after the fight?

Ms. Kary
Yes.

Stone
How long did it take for your head to become clear?

Ms. Kary
I am not sure.

Stone
Was your head clear when you met with the police?

Ms. Kary
I had started to calm down by then.

Stone
Does that mean your head was clear or unclear?

Ms. Kary
It was mostly clear.

Stone
If it was mostly clear, then why did you not tell the police about being called a bitch, worthless, disgusting, or ugly?

Ms. Kary
It must have slipped my mind.

Stone
Do things tend to slip your mind easily?

Ms. Kary
No.

Stone

Did you tell your family what happened?

Ms. Kary

No.

Stone

Why not?

Ms. Kary

My family does not approve of my lifestyle.

Stone

What do you mean by lifestyle?

Ms. Kary

When I told my family that I was a lesbian, they stopped talking to me. They said I was possessed by the devil and that I was going to hell.

Stone

You must have friends that you told, right?

Ms. Kary

My friends stopped listening to me about my relationship with Ms. Baboth. They think we should have broken up a long time ago.

Stone

Have you ever shouted at Ms. Baboth?

Ms. Kary

Not really.

Stone

It is a yes or no question. Have you ever shouted at Ms. Baboth?

Ms. Kary

Yes, but I have never verbally abused her.

Stone

I have witnesses who say otherwise. What do you think about that?

Ms. Kary

I think they are lying.

Stone

Do you think they are lying or know they are lying? Which is it?

Ms. Kary

I know they are lying.

Stone

Just a second ago, you said you thought they were lying. What changed your mind?

Ms. Kary

I...

J. Spence

Answer the question Ms. Kary.

Ms. Kary

I meant to say I knew they were lying.

Stone

Did you mean to tell the police that Ms. Baboth did not attack you?

Ms. Kary

No. I meant to tell them what I told them.

Stone

All you told the police was that Ms. Baboth shouted at you.
Are you aware of that?

Ms. Kary

Yes, but...

Stone

No further questions.

J. Spence

We will now take a five minute recess.

Narrator

J. Spence exits to her chambers.

Stone

I am surprised to see you here. I thought you were
vacationing on Earth.

Kevin

I was.

Stone

What are you doing back so early?

Kevin

Judgment Day is coming sooner than I expected.

Stone

How much time do we have?

Kevin

I am not sure when Judgment Day is coming to Omega, but it is coming to Earth by this Christmas.

Stone

What is your plan?

Kevin

I am going to build a Superwarp to evacuate as many people as I can. I need Doctor Bonkers' help. Is she testifying today?

Stone

She should be here soon. She is my expert witness.

Kevin

Good. I need her to help me with the technology.

Stone

You could always invert and fight back.

Kevin

That is too risky. Inversion is one of the most advanced Juhada techniques, and I have yet to master it. I am comfortable inverting to transport friends and family, but I am not comfortable inverting to transport fifty million people. I am certainly not comfortable inverting to fight Ebiasaph. It is said that he cannot be killed.

Dr. Bonkers

That was one short vacation.

Narrator

She says as she enters the court room.

Kevin

I am glad to see you. I need your help.

Dr. Bonkers
Are you okay? You look worried.

Kevin
I have eleven months to build a Superwarp.

Dr. Bonkers
Why the rush?

Kevin
Judgment Day is coming. I have until Christmas to build a Superwarp on Earth.

Dr. Bonkers
Building a Superwarp in eleven months will be tough but not impossible.

Kevin
How do we do it?

Dr. Bonkers
I will need to get a few things from the lab, including my husband. Two heads are better than one.

Kevin
We will break right after your expert testimony.

IV. Fair Trade

Narrator

Kevin frantically wakes up.

Olusayo

What is it?

Kevin

Lock everything. Wake everyone up.

Narrator

Kevin and his family are at Gwendolyn's house on Earth. Doctor and Doctor Bonkers are also staying at Gwendolyn's house. Olusayo and Kevin gather everyone and meet in the living room.

Gwendolyn

What is going on?

Kevin

Ebiasaph is going to deliver seven plagues.

Olusayo

Why did you tell us to lock everything?

Kevin

That is because body snatchers are...

Narrator

There is a loud knock on the front door.

Akeeba

Who is that?

Kevin

If we stay quiet, they will move to the next house.

Narrator

Kevin whispers.

Gwendolyn

What are they looking for?

Kevin

They are looking for bodies to possess. They are part of Ebiasaph's plan to cause confusion and fear.

Narrator

There are five body snatchers outside. They attempt to enter the house, but all the doors are locked. A bright light shines through the living room window. Akeeba and Nama are lying right below the window. After several minutes, it appears to be clear.

Gwendolyn

How do we know if they are gone for sure?

Narrator

A large brick is thrown through the window. Glass shatters everywhere. The group takes cover and monitors the window. Nothing appears to be coming through the window. After several minutes, Kevin checks the window. There is not a single body snatcher in sight.

Dr. Bonkers

It has been a long journey.

Kevin

You are right. Once we find something to cover the window, we can get some rest.

Dr. Bonkers

It has been a long journey.

Kevin

I heard you the first time. The quicker we cover the window, the quicker we can get some rest.

Narrator

Doctor Bonkers walks closer to Kevin. He gently places his hands on Kevin's shoulders.

Dr. Bonkers

It has been a long journey.

Narrator

He says with a voice of a demon. The group is startled, and Doctor Bonkers jumps out the window and runs into the street. He is running on all fours.

Kevin

You guys stay here.

Narrator

As Kevin chases Doctor Bonkers, nearby body snatchers begin chasing Kevin. Body snatchers are able to detect when a body is unoccupied. Once a person becomes possessed, there is virtually no way to free them without killing them.

Pastor

Let us...

Narrator

Doctor Bonkers crashes through the church doors. Kevin is right behind him.

Kevin

Lock everything. There are more not far away.

Narrator

The church ushers lock and barricade all the doors and windows. They all gather to the front of the church and begin praying.

Pastor

God's wrath is upon us. Why are you not praying?

Kevin

It is time for action not prayer.

Pastor

I rebuke you in the name of Muhammad.

Kevin

Do whatever you need to do, and I will do whatever I need to do.

Narrator

The body snatchers burst through the windows. The congregation is running everywhere. Some people are shouting. Some people are praying. Some people are hiding. More body snatchers burst through the church windows. One by one, they possess the congregation members. Once the members become possessed, they calmly sit in a church seat. Eventually, everyone except Kevin and Pastor are possessed. The body snatchers remain seated in the church pews.

Pastor

In Muhammad's name, I command you to come out of my people.

Narrator

At the exact same time, all the body snatchers begin laughing. Their laughter sounds disturbing. At the exact same time, all the body snatchers stand up. They form a line, and begin walking to the altar. At the center of the altar, there is a large fancy bible that sits on a raised stand. Each body snatcher tears out and eats several pages from the bible. Once they have eaten the pages, they sit back down. This process is repeated until they all have taken their seat.

Pastor

God in Arcadia, avenge us. Show the world your great power. I ask you in the name of Muhammad.

Body Snatcher

Maybe you should pray louder. I do not think God can hear you.

Narrator

Pastor bows down and prays even louder and more passionately.

Pastor

I am your faithful child. I have served you my entire life. I have never questioned your ways. I have always defended your name. I ask you, in the name of Muhammad, to save us. Save my congregation. Save us from these demons. Release your people from their bondage.

Narrator

Nothing happens.

Body Snatcher

How many times are you going to pray until you realize that God does not care about you? How long must you

suffer before you realize that it is God who is causing your suffering? Your people are ignorant. When there is something you cannot explain, you immediately conclude that it must be God. Soon, you will see the true face of God, and your vantage point will be from a serving dish.

Narrator

Pastor continues praying silently. The body snatchers stand and proceed to exit the church.

Kevin

Sit down.

Narrator

The body snatchers stop dead in their tracks. They turn and walk to the front of the church. They surround Kevin and mock him.

Body Snatcher

We know who you are.

B. Snatcher 2

The great Kevin of Omega.

B. Snatcher 3

You are far from home.

B. Snatcher 4

Juhada does not work on Earth.

Narrator

They begin striking Kevin. They kick, punch, bite, and spit on him. Kevin tries to invert to fight back, but he cannot. He does not want to lose Doctor Bonkers, so he takes the beating and does not teleport. Kevin lies on the steps of the altar. Pastor tries to lay hands on Kevin.

Kevin
Get off me.

Narrator
He shouts at Pastor.

B. Snatcher 5
I will trade you Doctor Bonkers for your pastor.

Kevin
He is not my pastor.

B. Snatcher 5
Then we have a deal.

Kevin
Whatever.

Narrator
Pastor grabs his bible and rebukes B. Snatcher 5.

Pastor
I command you to leave at once! I command you by the power of God and in the name of Muhammad.

Narrator
As B. Snatcher 5 approaches, Pastor becomes more fearful and drops the bible. Before the bible hits the floor, Pastor is possessed by B. Snatcher 5.

B. Snatcher 5
I like this body.

Narrator
B. Snatcher 5 begins masturbating at the altar.

B. Snatcher 5

I like this body a lot.

Narrator

The other body snatchers meet B. Snatcher 5 at the altar. They begin fondling themselves and each other.

B. Snatcher 5

Kevin, you and Doctor Bonkers are welcome to join us.

Narrator

Kevin does not respond. He takes hold of Doctor Bonkers and proceeds to exit. Kevin's heart mourns for the congregation members. Kevin inverts and transports Doctor Bonkers back to Gwendolyn's house.

Olusayo

Kevin, what happened?

Narrator

The group rushes to Kevin and Doctor Bonkers. Kevin is in tears.

Kevin

They got the entire congregation. I was unable to invert to fight back. All those people are prisoners in their own body, and it is my fault.

Gwendolyn

It is not your fault.

Akeeba

It is okay Kevin. At least you saved Doctor Bonkers.

Kevin

That is not enough.

Nama

It is okay Kevin. Do not cry.

Donte

Kevin, you tried your best. At least you had the courage to face them. That took a lot of guts.

S Nice

Remember Kevin, you cannot save everyone.

Narrator

Kevin wipes his tears in frustration.

Kevin

I did not want to save everyone. I just wanted to save them.

Mimi

It is okay Kevin. You tried your best.

Kevin

My best is not good enough.

Narrator

They sit with Kevin and try to comfort him. Doctor Bonkers and Donte cover the window with a wooden board.

Kevin

What is the point of knowing Juhada if I cannot use it to save people?

Olusayo

Babe, you know what you should do?

Kevin
What?

Olusayo
You should go to Omega and talk with Master Lee. He can teach you how to perfect inversion.

Kevin
That is a good idea.

Narrator
Kevin stands to his feet. He gives Olusayo a kiss and an inconspicuous smack on her tango.

Kevin
I will be right back.

ARCHIVE TWO – Perfect Balance

I. Gate Keepers

Snow Giant

What is your business here?

Kevin

I am here to practice pure music.

Snow Giant 2

We do not believe you. Access denied.

Narrator

The snow giants erupt in laughter. Kevin has absolutely no time or patience for the snow giants' games.

Kevin

I do not have time for this. I am here to practice pure music. I need to meet with Master Lee. I cannot sing like Mimi the Amazing. I cannot play any instruments. If you hear any music from me, it will be from Juhada.

Snow Giant 3

Juhada or no Juhada, your access is denied.

Snow Giant 4

Break this place, or we will break you.

Kevin

I know you guys are just doing your job, but I need to meet with Master Lee.

Snow Giant

Master Lee is not in the office today. Come back never and he will never be back.

Snow Giant 2

This is your last warning. Break this place, or we will break you.

Kevin

You will break nothing.

Sword Clash

ttttmmm!

Narrator

Master Lee senses Kevin is using Juhada. He runs to the front before things get out of hand.

Vincent

What is wrong?

Master Lee

No time to explain.

Narrator

Kevin is levitating and holding two flaming swords in his hands.

Master Lee

Hold on. It is okay. Kevin is with us. He is here to practice pure music.

Kevin

That is what I told them, but they did not believe me.

Narrator

Kevin says as he prepares to fight the snow giants. Three flaming swords rotate Kevin.

Vincent
Put the sword down Kevin.

Kevin
Which one?

Sword Clash
ttttmmm!

Narrator
C chord plays and shifts to D.

Master Lee
If you want to perfect inversion, you must learn to focus
and balance your passion perfectly.

Kevin
I tried that, and hundreds of body snatchers kicked my ass.

Narrator
D chord plays and shifts to E.

Master Lee
I can teach you how to balance your passion, but you have
to calm down.

Kevin
Tell the snow giants to calm down.

Vincent
What is wrong with Kevin?

Master Lee
He is feeling anger and shame. Body snatchers possessed
an entire church congregation. He blames himself. His

anger is misplaced. He is focusing all his anger on the snow giants. I might have to fight him.

Vincent
Fight him?

Master Lee
Trust me.

Kevin
What are you guys talking about? Talk to the snow giants. Tell them to move the hell out of my way.

Master Lee
Do not blame others for your shortcomings. It is not the snow giants' fault that you got your ass kicked. It is your fault.

Kevin
What did you say to me?

Master Lee
You heard me. It is your fault.

Narrator
E chord plays and shifts to F minor. F minor holds.

Pascha
What is going on out here?

Vincent
Master Lee is about to fight Kevin.

Narrator
News of the fight spreads within seconds. Soon, nearly every student is outside watching.

Master Lee

Kevin, put your swords down. Calm down and come down.

Kevin

Make me.

Narrator

Kevin's passion has risen to tenth degree Juhada. He is causing flaming boulders to fall from the sky. Each boulder weighs one thousand pounds or more.

Vincent

Everyone get inside. It is not safe out here.

Narrator

Everyone, including the snow giants, runs inside the academy.

Master Lee

Today, you will learn why they call me Master Lee.

Sword Clash

ttttmmm!

II. Inversion

Narrator

The group watches from the inside window as Master Lee lunges and meets Kevin in the sky. When Master Lee's sword comes into contact with Kevin's sword, everything goes completely dark.

Student

I cannot see anything.

Vincent

Me either.

Master Lee

我慢しないでください

Narrator

translation – Do not hold back.

Kevin

気をしっかり持つ

Narrator

translation – Brace yourself.

Sword Clash

ttttmmm!

Narrator

Even though it is dark, Kevin and Master Lee's movements are traced with flames. Kick block reverse. Reverse kick block slash. Slash block kick Juhada blast. Kevin falls out of the sky and slams into the snow.

Master Lee

私は遠慮しないことを言った

Narrator

translation – I told you to not hold back.

Kevin

ファイン

Narrator

translation – fine.

Kevin

私の人々が落下した場合、私は彼らと一緒に落ちる

Narrator

Translation – If my people fall, I fall with them.

Sword Clash

ttttmmm!

Narrator

Seven swords emerge from underground, and seven swords emerge from the sky. Master Lee dodges every one. After he dodges the last one, his face is met by Kevin's kick.

The energy produced from the kick causes everyone watching to fall to the ground. It causes Master Lee to fly through the air and land hundreds of feet away. Master Lee swings a flaming chain to catch Kevin and throw him into the sky. Master Lee teleports to meet Kevin in the sky and kicks him to the ground. Master Lee teleports to the ground. Master Lee creates a wall of flames, runs up the wall and kicks Kevin back into the air. Master Lee teleports back to the air. Kick punch knee. Kick punch knee elbow. Elbow knee punch Juhada hit. Hit punch

Juhada kick. Master Lee falls to the ground. Kevin remains in the sky surrounded by seven swords.

Master Lee

It does us no good to fight here in Omega. If inversion is what you want to learn, we must continue this lesson elsewhere.

Narrator

The room becomes bright again. The group looks from inside as Master Lee flies into the air. Kevin flies to meet Master Lee. When their swords come into contact, they both disappear. Master Lee teaches Kevin how to balance his passion. He teaches him how to invert and access pure music from any location. After six months, Kevin masters inversion.

III. Resurrection

Kevin
How long was I gone?

Olusayo
Less than one second.

Kevin
Good. Everyone hold hands.

Narrator
Kevin transports the group to the church.

Body Snatcher
I knew you would change your mind. You brought your friends along to participate in our altar orgy.

Kevin
I came back to free the people you possessed.

Body Snatcher
Do I have to remind you that you are not...

Kevin
In Omega.

Sword Clash
ttttmmm!

Narrator
The body snatchers attempt to flee. Radical Faith captures everyone. Each body snatcher is pinned to their chairs by pure music.

B. Snatcher 2

You cannot evict us without killing the body we possess.

Kevin

That is true.

B. Snatcher 3

What are you going to do great Kevin of Omega?

Kevin

We are going to kill the body you possess. You will die. Then, we will resurrect the souls of the bodies' original owners.

B. Snatcher 4

אפשרי לא זה

Narrator

translation – that is not possible.

Kevin

טהורה מוסיקה עם אפשריים הדברים כל

Narrator

translation – All things are possible with pure music.

B. Snatcher 3

בגיהנום אותך רואים אנחנו

Narrator

translation – We will see you in hell.

Kevin

יהיה, זאת לעומת, אתה. לביקור רק אני, בגיהנום אותי רואה אתה אם להישאר כדי שם

Narrator

translation – If you see me in hell, I will only be visiting.
You, on the other hand, will be there to stay.

Sword Clash
ttttmmm!

Narrator
Kevin inverts. Radical Faith plays, sings, and paints. The
bodies and body snatchers die.

Kevin
B4, bring the bass.

Narrator
B4 begins playing the rhythm of a human heartbeat.
Radical Faith plays and sings along. After three minutes,
every congregation member is resurrected and brought
back to life. They shout for joy and embrace Radical Faith.
Pastor embraces Kevin.

Kevin
What was that for?

Pastor
Our bodies were possessed, but our eyes were open. We
saw the whole thing. Thank you for coming back for us. I
apologize for calling you a delusional fool.

Kevin
You called me a delusional fool?

Pastor
That was yesterday. Today, you are a hero. We owe our
lives to you. Let us know how we can help.

Kevin

I need you to get all the pastors and congregations together.
Is there a place where we can meet?

Pastor

We can meet at city hall. I will call an emergency meeting
of all the pastors, clergy, and their congregations.

Kevin

That will be perfect.

Pastor

What should we do if the body snatchers come back?

Gwendolyn

Maybe we should sleep in the church tonight.

Kevin

Okay. We will sleep here tonight.

Olusayo

What about all the other people? They are in danger.

Kevin

We can build a barrier around the Superwarp construction
site. It is up to us to protect our people. We must recruit
believers, protect believers, and transport believers to
Omega.

IV. Anarchy

Akeeba

Come take a look at this.

Narrator

Everyone looks out the front door. People are running in the streets. The traffic is maddening. People are stealing and breaking into markets. Police and military officials are policing the streets. The sounds of helicopters and sirens can be heard in every direction. The screams of people, who have lost love ones, surf the sound waves of nearby gunshots and explosions. Everyone is in a panic. The TV news is displayed on a large billboard in front of the church. The madness ceases for a moment while the news is on.

TV News

We are experiencing an abduction crisis. Many people have reported strange behavior. Some people have reported that their family members sprinted away in the middle of the night. No one knows where these individuals went. The police and military are working together to uncover the root of this madness. For now, we recommend that everyone stay calm and stay alert.

Narrator

The madness continues.

Pastor

How are we going to reach city hall?

S Nice

Maybe we can bring city hall to us. We can put on a show to get their attention.

Pastor
That could work.

Kevin
Can you paint some animals?

S Nice
Sure, but why animals?

Kevin
I think a stampede will do the trick.

Narrator
Kevin uses Juhada to invert. This opens a portal from Omega to Earth which allows pure music to flow through.

Andre
Random T, S Nice, are you ready?

S Nice
I am ready.

Random T
Uh.

Narrator
He is ready.

Random T
Check it. I see a bus full of balloons and large baboons.

Andre
I see a street full of elite rhinos in heat.

S Nice
From my end, I see a lion along with lions.

Random T

Nice one. I see pythons riding with their lights on.

Andre

Craziness. I see death birds gliding with laziness.

S Nice

Checkmate. Whoever thought elephants tailgate?

Random T

Uh. Whoever thought bees could dance? I see Two Step two stepping clapping his hands.

Andre

What do you know?

Random T

What up?

Andre

I see a one mile manhole. From the middle emerges a mighty crow carrying a fifty foot scarecrow.

Narrator

Instantly, everything they painted becomes real and stampedes in the street. The church congregation looks in amazement.

Olusayo

That got their attention.

Kevin

Pastor, do you think you can talk some sense into these people?

Pastor
I will try.

Narrator
The group follows Pastor outside. Pastor climbs on top of an abandoned diesel truck.

Pastor
Please listen.

Narrator
The people cannot hear Pastor. They continue observing the animal stampede. Andre paints a megaphone for Pastor.

Pastor
Hear me!

Narrator
The people gravitate around the diesel truck.

Pastor
We are, indeed, in the last days. Judgment Day is upon us. I know many of you are afraid. I know many of you have lost your friends and love ones. I know many of you seek answers. A great evil is upon us. Body snatchers walk among us. I know what it is like to be snatched. Last night, my congregation and I were snatched. We became prisoners in our own bodies. We could see and feel everything but could do nothing to stop it. Do not be fearful. I have the answers that you seek.

Narrator
The people roar in triumph.

Person

Why has Judgment Day come upon us?

Narrator

The crowd is becoming tumultuous. Pastor cautions them to settle down.

Pastor

Many of you have heard of Radical Faith. Can I talk about it?

Person 2

Preach Preacher.

Pastor

Radical Faith is not a fairy tale.

Congregation

Hallelujah!

Narrator

The crowd looks with disbelief.

Pastor

Radical Faith is one hundred percent true. Omega does exist. Pure music does exist. And, anyone who does not believe Radical Faith will burn in hell.

Congregation

Amen.

Pastor

How many of you saw Kevin on the talk show yesterday?

Narrator

Virtually everyone in the crowd raises their hand.

Pastor
Can I talk about it?

Choir Altos
Let it shine. Let it shine.

Narrator
They sing and hold.

Choir Altos
Let it shine!

Pastor
Hallelujah.

Choir Tenors
Let it shine.

Narrator
They sing and hold.

Choir Tenors
Shine. Shine!

Narrator
Pastor is captivating the crowd. The crowd is fired up.

Pastor
In the last days, we will let our light shine. Yeah.

Congregation/Crowd
Amen.

Pastor
My soul says yeah. Can you say yeah?

Congregation/Crowd
Yeah.

Narrator
They sing and hold.

Pastor
Can you say yeah?

Congregation/Crowd
Yeah.

Narrator
They sing and hold.

Pastor
My soul says yeah.

Person 3
Hallelujah!

Pastor
Kevin claims that he is the Kevin in Radical Faith. Kevin claims that Radical Faith's author was inspired by a dream fairy from Dreamland. Kevin claims that he knows the way to Omega. Kevin claims that Omega offers eternal life.

Narrator
The crowd is stoked.

Pastor
Kevin is not a delusional fool. Radical Faith is the savior of this world. They will lead us to Omega. They will spare us from God's evil wrath that is Judgment Day.

Congregation/Crowd
Amen.

Pastor
God the father sits on the throne of Arcadia, and
Muhammad sits at his right hand. They, both, have come
to kill us.

Congregation/Crowd
Amen.

Pastor
We know the true meaning of life.

Congregation/Crowd
Hallelujah!

Pastor
It is to follow the will of Radical Faith. It is to spread the
truth of Radical Faith throughout the Earth. It is to obey
Radical Faith and love pure music with all our heart.

Person 4
Preach Pastor.

Narrator
Radical Faith is giving Pastor a musical boast. The
congregation is ready to break out in a holy dance.

Pastor
Can you say yeah?

Congregation/Crowd
Yeah.

Narrator

They sing and hold.

Pastor
My soul says yeah.

Congregation/Crowd
Hallelujah!

Pastor
We must pray for everyone who is not a believer of Radical Faith. Nonbelievers will face God on Judgment Day.

Congregation/Crowd
Amen.

Pastor
If there is anyone here who would like to experience Radical Faith's love and everlasting grace, please come to the altar. Come and make Radical Faith your savior. Come and let Radical Faith save you from God's wrath. Let Radical Faith enter your heart. Let pure music transform your life. Let Radical Faith save you. Believe in Radical Faith, and you will not perish but will have everlasting life.

Narrator
The entire crowd moves closer to the diesel truck, which is serving as the altar. The people are emotional, frightened, and hopeful.

Pastor
Let us pray.

Narrator
Everyone's head is bowed.

Pastor

Great power of Omega, we thank you. We thank you for sending Radical Faith to save us. We ask that you forgive us of our sins. We ask that you forgive us for not believing in Radical Faith. We pray that you give us guidance and wisdom. We pray for strength and endurance. We have a great task at hand. We have until Christmas to help Kevin build a Superwarp. We bind the spirit of distraction in the name of Radical Faith. We bind the spirit of violence in the name of Radical Faith. We rebuke the evil spirits and demons that will try to come against us. Where we are weak, Radical Faith is strong. From out of the darkness, you gave us your light. You gave us a savior that we can see with our own eyes. We renounce Muhammad in the name of Radical Faith. We renounce the bible in the name of Radical Faith. The bible is full of elaborate stories and legends of old. We now see that the bible is an evil doctrine. We rebuke the bible in the name of Radical Faith. We ask that you fill our hearts with pure music. Let Radical Faith cleanse us of our sins. Let Radical Faith show us the way. We pray for the hands that will build the Superwarp. We pray for the minds that will collaborate to bring forth the technology for the Superwarp. We rebuke sickness in the name of Radical Faith. We rebuke disease in the name of Radical Faith. We rebuke confusion and strife in the name of Radical Faith. We bind the spirit of greed in the name of Radical Faith. Kevin has called upon all wealthy individuals to donate their wealth. We ask that you touch their hearts. We ask that you urge the wealthy to donate their wealth for the greater good. We pray for a hedge of protection. Protect our bodies, minds, hearts, and spirits. Protect the Superwarp. We dedicate the Superwarp to you, great power of Omega. Let it be a symbol of our loyalty and faith. Day after day, we have prayed for answers. We prayed that God would save his people. We prayed that he would deliver us from this evil world. Our

prayers were never answered. We now know that we were praying to the wrong god. Forgive us for praying to the evil entity that calls himself God. Great power of Omega, give us the courage to stand against evil. Give us the knowledge to build the Superwarp. We are eternally grateful for Radical Faith. We will spread the gospel of Radical Faith throughout the world. As the world observes the Superwarp's construction, let them also be enlightened and inspired to accept Radical Faith as their savior. Let them be inspired to donate their money and time. Let them be inspired to motivate others to do the same. Let the reciprocity of kindness and giving permeate the hearts of every man, woman, boy, and girl. We ask these things in the name of our lord and savior, Radical Faith. To Radical Faith be all the honor and glory forever. Amen.

ARCHIVE THREE – Early Disciple

I. New Release

Titilayo

What are you reading?

Nneka

It is a new book. I downloaded it yesterday.

Titilayo

What is it called?

Nneka

You probably have never heard of it.

Titilayo

Try me.

Nneka

It is called Radical Faith.

Titilayo

What is it about?

Nneka

It is about a family who uses their gifts to save the universe.

Titilayo

That sounds like a good book.

Nneka

It is a great book. I look forward to reading the others.

Titilayo

There are more?

Nneka

Yes.

Titlayo

How many Radical Faith books are there?

Nneka

So far, there are three. There is Gift of Time, Planet Hope, and Judgment Day. I am currently reading Gift of Time.

Titlayo

Tell me more about it.

Nneka

I do not want to spoil the book for you.

Titlayo

Well, at least tell me something.

Nneka

The book was written by K.F. McDaniel.

Titlayo

I have never heard of him.

Nneka

He is a new author. Anyway, the family goes on a space journey and discovers pure music.

Titlayo

What is pure music?

Nneka

You will have to read the book for yourself. My lips are sealed. You want to hear something crazy?

Titlayo
Yeah.

Nneka
Titlayo is in the book.

Titlayo
What?

Nneka
In Gift of Time, there is a character named Titlayo.

Titlayo
What a coincidence?

Nneka
I do not believe in coincidences.

Titlayo
May I see the book?

Nneka
Sure.

Narrator
Nneka hands Titlayo her tablet.

Titlayo
“A few hundred light years away exists a beautiful galaxy called the Omega Galaxy (aka Omega). Omega has seven planets. Each planet is about twenty times larger than Earth. Each planet has its own unique character.”

Nneka

Could you imagine living on a planet that is twenty times larger than Earth?

Titlayo

That would be something.

Teen

What are you guys reading?

Titlayo

It is a new book called Radical Faith.

Teen 2

What kind of book is it?

Nneka

It is classified as teen, young adult, science fiction, and fantasy.

Teen

May I see it?

Narrator

Titlayo hands the tablet to Teen.

Teen

“Omega 1 is the only planet in Omega with more than one moon. One moon is used for prisons. These prisons house all the prisoners in Omega. Another moon is used for fine dining and entertainment. This is where the famous Space Mall is located.”

Teen 2

Whoever wrote this must have been smoking some hardcore marijuana.

Narrator

The teens joke.

Teen

Listen to this part. “Omega 2 is probably the least similar to Earth. Omega 2 has all blue plants and vegetation. The ocean and sea are gold in color. The sky is also gold in color. Although there are some smaller shade trees, many trees are abnormally tall. These trees are commonly referred to as the Trees of God. The height of these trees can easily trump the height of the highest mountain on Earth. The Trees of God represent over seventy percent of the trees on Omega 2. The average trunk size of these trees is fifteen miles in diameter. Due to Omega 2’s solar position, it experiences only about one hour of natural darkness. However, the Trees of God compensate for this. Toward the late evening, these giant trees band their leaves together with other nearby trees. The process happens very gradually over the course of about three hours. Once the trees have banded together, it appears to be night. The trees hold this position until the morning. Once morning comes, they release their bands and allow the sun to shine through again.”

Teen 2

Damn. That is crazy.

Nneka

I know, right?

Teen 2

Do you think the Trees of God really exist?

Teen

I do not know. It is possible.

Nneka

I am fascinated by this book. I am not absolutely convinced that it is purely fictional.

Titlayo

You believe the stories are real?

Nneka

There is no way the author could have made it up. He describes the atmosphere with an unusual degree of precision and detail.

Teen 2

You and the author must be smoking the same marijuana. Radical Faith cannot be real.

Teen

How do you know? When is the last time you explored outer space?

Teen 2

Well...

Teen

Have you ever been to outer space?

Teen 2

No.

Teen

Then how do you know Radical Faith is not real? How do you know the Trees of God are not real? How do you know Omega is not real?

Teen 2

I guess I do not know for sure.

Nneka

Teen and Teen 2, do you want to hear something cool?

Teen/Teen 2

Yeah.

Nneka

Titlayo is in the book.

Teen

What?

Nneka

In Gift of Time, there is a character named Titlayo.

Teen 2

What is Gift of Time?

Nneka

Gift of Time is the name of the book.

Teen 2

I thought the book was called Radical Faith.

Nneka

It is called Radical Faith. Gift of Time is the subtitle of the first book in the Radical Faith series.

Teen

How many Radical Faith books are there?

Nneka

So far, there are three. There is Gift of Time, Planet Hope, and Judgment Day.

Teen
Cool.

Titlayo
Can you keep a secret?

Everyone
Yes.

Titlayo
I am the Titlayo in the book. I have been practicing pure music at Vincent Academy. I have lived in Omega for over twenty years. I am visiting Earth to see my cousin, but I will be returning to Omega this weekend. You have to promise not to tell anyone.

Narrator
Teen and Teen 2 begin laughing. Nneka stares at Titlayo. Nneka believes her.

Teen
Titlayo, you are pretty funny.

Teen 2
We have to get to class. Freshman algebra, here we come.

Narrator
Teen and Teen 2 go to class. Nneka turns to Titlayo.

Nneka
Your secret is safe with me.

II. Evangelist

Host

You do not actually believe Radical Faith is real, do you?

Nneka

Yes I do.

Host

How can you believe such a ridiculous story?

Nneka

You need to repent before it is too late.

Host

I have nothing to repent for.

Nneka

You need to repent for your blasphemy.

Host

What makes you so sure that Radical Faith is real? Radical Faith is classified as fiction.

Nneka

I believe dream fairies inspired K.F. McDaniel's visions. I believe they inspired him to write Radical Faith. I believe Radical Faith was written to educate us and warn us about Judgment Day. Judgment Day is upon us. Everything written in Radical Faith is coming true. We have seen an increase, in frequency and magnitude, of natural disasters. We have seen violence and war increase dramatically. Recently, we have seen evidence of body snatchers.

Host

Wait a second. The president issued a statement regarding the alleged body snatchers. He said the behavior was caused by illegal drug use.

Nneka

People like explanations they can understand. Many people do not understand Radical Faith. Therefore, many people reject Radical Faith as an explanation of the behavior. The concept of a body snatcher is outside their sphere of comfort and, thus, outside their sphere of acceptance and understanding. For most people, illegal drug use is an acceptable explanation for the recent schizophrenic behavior. As a consequence, illegal drug use is the explanation that most people accept: including you.

Host

You are just as crazy as Kevin.

Nneka

I am flattered by that comment. Kevin came back for us. He has liquidated every asset that he owns. He has called on others to do the same. Why would such a successful entrepreneur act in such a way? You say it is because he is crazy. You heard Kevin on the talk show. Did he sound crazy to you? Did he sound like someone losing his mind? No. Kevin is sharp as a tack just as he has always been. Kevin is known as a risk taker. He is now taking the biggest risk of his life. He is risking his entire fortune to build a Superwarp and save the human race. I suggest that you repent before it is too late. The Superwarp is being designed with a maximum capacity of fifty million people. Radical Faith already has twenty million followers. Once the number reaches fifty million, no one else will be permitted to apply for the Superwarp transport program. I suggest that you repent of your sins and accept Radical Faith as your lord and savior.

Host

The bible teaches that no man knows the day or the hour of Judgment Day.

Nneka

The bible is wrong. It is a deception. Your god is evil.

Host

How dare you!

Nneka

Your passion is blinding you from the truth. What would you think of me if I allowed you to be tormented and killed?

Host

I would say you are a wicked person.

Nneka

What would you think of your god if he allowed you to be tormented and killed?

Host

God always has a plan.

Nneka

You make excuses for your god, but you call me a wicked person? What gives you the right to call me wicked? I am doing what your god does. Maybe I have a plan too.

Host

God is all knowing. You are not.

Nneka

You just proved my point.

Host
How so?

Nneka
If your god is all knowing, he should be able to concoct a less gruesome plan. He should be able to concoct a plan which does not involve pain, suffering, starvation, and death. If your god is all knowing, he would, as a consequence of his infinite knowledge, concoct plans that caused no suffering. If your god concocts plans where innocent people suffer, he must want innocent people to suffer. If he wants innocent people to suffer, he is a wicked monster disguised as a loving god.

Host
How can you say that?

Nneka
Do not be a fool. Look at the facts objectively. Remove your passion from the analysis. Our true creator created us with the ability to think for ourselves. It is by this ability that we learned how to make fire. We learned how to generate electricity. We learned how to build bridges, buildings, and vehicles. We learned how to perform open heart surgery. We learned how to build and use computers. Every invention and innovation can be traced to our ability to think rationally and critically. Any god worth serving would not punish his people for thinking rationally and critically about the bible, god, or god's character.

Host
Our god is supreme.

Nneka

Your god's real name is Ebiasaph. You have been effectively brainwashed to believe Ebiasaph is a loving god. Ebiasaph is far from a loving god. What kind of loving god allows his only begotten son to be beaten, tortured, and crucified? Who was his son sacrificed to? Did Ebiasaph sacrifice his son to himself? It makes no sense. Think if it were your son. Would you sacrifice your son to be beaten, tortured, and crucified? I think not. If you were truly all knowing, you would concoct a less gruesome plan.

Narrator

Host is without words.

Nneka

Your bible says that Ebiasaph prefers souls to be hot or cold. A hot soul is an adamant believer in the gospel of Muhammad. A cold soul is an adamant disbeliever in the gospel of Muhammad. Ebiasaph hates lukewarm souls. He says he will spew the lukewarm souls from his mouth. You are clearly an adamant believer in the gospel of Muhammad. Your ignorance is going to land you in the center of Ebiasaph's dinner plate.

III. The Church of Radical Faith

Narrator

Nneka was the first person to claim that Radical Faith was real. Ever since reading Gift of Time, she has believed Radical Faith. During high school, Nneka created a student organization called Radical for Radical Faith. Radical for Radical Faith held prayer, Radical Faith study, and pure music worship service. Nneka taught lessons on pure music and self-control. She preached about the beauty and majesty of Omega. She created a dream room for people to draw their dreams and aspirations. She offered free student counseling for teens that had been abused or molested. She created her school's first hunger drive where she sought donations from local restaurants and grocery stores. Once all the food was gathered, Radical for Radical Faith neatly packaged the food in individual boxes. On Sunday, they passed out the boxes to the homeless. Soon, the homeless wanted to attend Nneka's student organization service. Nneka spoke with her school principle, but the principle denied her request.

Principle

Student organizations and organizational meetings are for students. Hence, the name student organization.

Narrator

Nneka did not waiver. She began holding services on Sunday in the streets. The students and the homeless enjoyed Sunday service together. When her followers increased in number, she considered establishing an official church. The day after her high school graduation, she established the Church of Radical Faith. Their services were held in the basement of a neighborhood fashion market. There were no windows. There was no air conditioning. In the beginning, the church members had to

sit on the floor because there was no money for chairs. By the next month, their church began receiving donations from the community. Their donations touched Nneka's heart and motivated her to work even harder. Nneka began holding services every day of the week. She offered free counseling five days a week. Nneka established a career services center for her church. The career center taught interviewing skills, work etiquette, computer skills, reading and writing skills, and other general life skills. Nneka also offered free tutoring. Nneka secured partnerships with dozens of local businesses and establishments. The partnerships enabled Nneka's youth students to secure employment to save money for college. Nneka also established a new holiday called "Faithmas."

Community Member

What is Faithmas?

Nneka

Faithmas is celebrated on the same day as Christmas. Faithmas is a day to celebrate the victory of Radical Faith. Faithmas is a day when family gets together. During Faithmas, people decorate their homes with white pine trees. They use blue lights and ornaments to decorate the pine trees to symbolize a Tree of God. They wrap gifts in gold colored gift wrap and place them under the tree. The gold colored gift wrap represents the gold colored ocean and sea surrounding the Trees of God. On Faithmas Eve, the tradition is to have a group feast with at least ten families. Many times, the families do not initially know each other. However, they get to know each other during Faithmas season. This inspires families to welcome new families in the community. On Faithmas Eve, there are thousands of "Faithmas music grillers." A Faithmas music griller is when local community musicians perform (at a local park or church) while other community members

BBQ. The food is free for everyone in the community, and everyone in the community pitches in to cover the costs. Those with more, pitch in more. Those with less, pitch in what they can. On Faithmas Day, families spend time with their own families. They eat, exchange gifts, and play games. Faithmas is about the spirit of giving. More specifically, it is about the spirit of giving to those in need. On Faithmas Day, it is common for those in need to receive substantial gifts from strangers.

Narrator

Nneka's church puts on an annual Faithmas play. The community loves to play the different characters. Members in the community donate costumes, materials, labor, lights, cameras, and other materials necessary for the play. People of all ages are welcome to join the play. One year, Nneka attempted to reenact "Inversion" from the book of Judgment Day. Things did not work out as planned. Even though no one was injured, the building burned to the ground as a result of all the flames. Luckily, the building owner had insurance. The fiasco has become a fond and humorous memory.

Community Member

Do I need to bring a fire extinguisher to this year's play?

Narrator

The community member jokes.

Nneka

Bring it just in case. You never know.

Narrator

Nneka jokes back.

Community Member

In that case, I will bring two fire extinguishers.

Narrator

After two years from the date the church was established, Nneka opened a small school for her church. The church was open to any member in the community. Tuition was free. The school was funded by donations. Nneka also created the world's first special education course to accommodate for special needs students. Nneka is viewed by most people as a saint. She has developed a strong following of millions people. Even when most of the world thought she was crazy, Nneka was never deterred. Many government officials despised Nneka's church. They claimed Nneka was a thief and a fraud. On her fortieth birthday, government officials arrested Nneka and threw her in prison. The community became outraged. Nneka's followers stormed the prison and demanded Nneka's release. Her followers were ready to die for her. The police and government officials tried to intimidate her followers with their weapons, smoke grenades, and fancy armor. Nneka's follower had no weapons, smoke grenades, nor fancy armor. Nneka's followers had something much more powerful: love. Her followers refused to leave the street until Nneka was released. Men, women, and children camped in the streets for two weeks. Nneka's followers rioted every day from dusk till dawn. After fifteen days, Nneka was released from prison. The following year, Nneka ran for mayor and won by a landslide. Nneka wasted no time in office. She made many improvements to the city, starting with public safety.

Nneka

If people do not feel safe in our city, we will lose our talented people to other more stable cities. If people do not feel safe in our city, we will lose the opportunity to boast

our economy because tourists do not tour (or spend their money in) unsafe cities.

Narrator

Nneka spreads the gospel of Radical Faith wherever she goes. Any and every chance that she has, she preaches the gospel of Radical Faith. She teaches people the value of humility. Nneka's humility is pronounced. She credits her insight and wisdom to Radical Faith. Nneka has memorized every word in each book. She can quote the section, page, and line number of every sentence. Nneka is well respected for her resilience. Nneka has been preparing for Judgment Day since she was fifteen years old. Nneka is now fifty two years old. Recently, Nneka has evangelized even more people. The unexplained events have cause people to question their current faith. They are turning to Nneka for answers. Nneka visits churches, temples, synagogues, schools, and community centers to spread the gospel of Radical Faith. She makes hundreds of television appearances. Eventually, one of her appearances catches Kevin's attention.

Kevin

Can you increase the volume?

Narrator

Nama increase the volume on the TV.

Nneka

If your god is all knowing, he should be able to concoct a less gruesome plan. He should be able to concoct a plan which does not involve pain, suffering, starvation, and death. If your god is all knowing, he would, as a consequence of his infinite knowledge, concoct plans that caused no suffering. Kevin

Who was that?

Pastor

That was Nneka. She started the first Church of Radical Faith. She is saint.

Kevin

I would like to speak with her.

Narrator

Pastor gets on the phone and contacts the board of pastors. The board of pastors gets Nneka on the phone.

Kevin

Hello Nneka. My name is Kevin.

Narrator

Nneka is stunned and drops the phone.

Kevin

What was that? Nneka, are you okay?

Friend

Who is it?

Nneka
It is Kevin of Omega.

Narrator
Nneka's friend becomes faint.

Friend
Is Kevin going to save us?

Kevin
Nneka, are you there? Is everything okay?

Nneka
I am here.

Kevin
I saw you on TV today.

Narrator
Nneka is too nervous to respond.

Kevin
You made some valid points. Is it true that you established the first Church of Radical Faith?

Nneka
Yes. I established it about thirty years ago. It has grown substantially since then. We now have twenty million members.

Kevin
Really?

Nneka

Sometimes, I have to pinch myself to see if I am dreaming. I started the church with only a handful of people. It blesses my heart to see it grow to such a large number.

Kevin

What inspired you to start the church?

Nneka

My parents went out of town for the weekend. I was jumping for joy when my parents left. I planned to throw a house party. I called my friends and told them the good news. I learned that they were grounded for attending a house party the previous week. I decided to visit a local shopping mall. I saw a pair of jeans that I really liked. I tried them on, and they fit perfectly. When I got home, I removed the jeans from the shopping bag to hang them in my closet. As I was hanging them, a note fell out.

Kevin

What did the note say?

Nneka

It said, "The end is near. Radical Faith believers must be ready. Use the books as your guide. For your protection, do not repeat this message to anyone. Let the great force of Omega be with you."

Kevin

That is strange. Was there anything else?

Nneka

There was a link to the author's webpage which displayed several Radical Faith books. I noticed the books were written by a new author by the name of K.F. McDaniel. The first book was subtitled Gift of Time. It was only a few dollars, so I purchased it. I immediately noticed that it

was no ordinary book. The book was written in an unusual style that I had never seen before. It was written like a transcript. After reading the first two archives, I noticed the book was written like a puzzle. As I read it, the pieces began to come together. I also found it intriguing that the author titled each section “archive” rather than “chapter.” After the third archive, I began to suspect the book was a true story. My suspicions were confirmed when I met a character from the book. I promised to keep it secret, so I cannot tell you the character to which I am referring. I have been preparing for Judgment Day since I was fifteen years old.

Kevin

How did you know Judgment Day would come in your lifetime?

Nneka

Radical Faith gave clues and hints regarding the time era. I learned that time starts fresh after each Judgment Day.

Kevin

You are right. Time starts fresh after each Judgment Day. Judgment Day could properly be termed “Harvest Day.” Ebiasaph considers each planet a crop. Each crop takes a certain amount of time to bring forth good fruit. Good fruit are those people who take Ebiasaph’s beatings and torment, but, nevertheless, continue to worship him. The darker and more evil the world gets, the closer Judgment Day is. Ebiasaph knows that if he waits too long, all the good fruit will be consumed by the bad fruit. Therefore, Ebiasaph steers the world’s progress in order to ensure the crop is ready on time. Once Ebiasaph devours the faithful souls and destroys the unfaithful souls, he replenishes the Earth with new people. He has repeated this process for millions of years. Ebiasaph does not love the people of Earth just as

a fisherman does not love the fish he catches to eat. My plan is to transport fifty million Radical Faith believers to Omega to avoid Earth's Judgment Day.

Nneka

I have twenty million Radical Faith followers.

Kevin

We are constructing the Superwarp in West Africa. I will make arrangements to transport your people here. Our maximum capacity is fifty million people. With your twenty million Radical Faith followers, we are now at capacity. Today, I will make an announcement that the application process is closed.

Nneka

What should we bring?

Kevin

Food, water, clothing, and shelter will be provided. All you need to bring is yourself. You are also welcome to bring Radical Faith and continue holding your regular church services. I greatly appreciate all that you have done on Earth. You have advocated for Radical Faith for over thirty years. You have risked your life and liberty to spread the gospel of Radical Faith. You have cultivated the future leaders of our society. You have given hope to the hopeless. You have held your ground in the face of adversity. You have changed the world for the better. I know you will do the same in Omega. I know you will use your compassion for people to make Omega a better place. I know your followers will do the same. I welcome you and your followers to join us on our journey to Omega. I am honored that you will be joining us, and I am honored that I met you.

ARCHIVE FOUR – Space Force

I. Army of One

Akeeba

Kevin, I was thinking.

Kevin

Thinking is good.

Akeeba

Have you thought about training a space force?

Kevin

Actually, I have not.

Akeeba

It might be a good idea. You never know what we will encounter along the way. Having a space force may come in handy.

Kevin

To be honest, I always assumed Donte would turn himself into an army and protect us.

Donte

Yeah right.

Kevin

In the battle with Xeox against Croton you turned yourself into two million Dontes. When I saw you turn into two million Dontes, I began to question my presence in the war. I was like, “What the hell. Just have Donte jack everyone up, and we can all go home.” Between you and Akeeba, you guys can take on the whole universe by yourselves.

Akeeba

That is not true.

Kevin

Really? I am still slightly deaf from the explosion you initiated on Magma 5 by playing your keyboard. Do not even get me started on you Nama.

Nama

What did I do?

Kevin

What did you do? Let us see. I remember being in the ocean. I remember there being no ocean for like two minutes. Then I remember have the ocean slam down on me. Sure, you killed all our enemies, but you also got me extremely wet and soaked.

Narrator

Nama's contagious laugh causes everyone to crack up.

Kevin

Where is Olusayo?

Olusayo

I heard my name.

Kevin

You are the most dangerous of all actually.

Olusayo

Why do you say that?

Kevin

What happened when the goblin grabbed Jadesola?

Gwendolyn

I remember that day. You go ahead girl. That is my baby.

B4

You killed the goblin three or four times. Then you killed every goblin.

Kevin

You need to explain yourself. You cannot bust out with a nine hundred hit combination without providing some kind of explanation. Seriously. What was that?

Olusayo

I was just protecting Jadesola.

Kevin

Well, you protected her alright.

Random T

What about Ms. Gwendolyn? The momma mega slam is no joke.

S Nice

That is the truth. It is more devastating than an atomic bomb.

Andre

You are one to talk S Nice. I recall two hundred thousand flying monkeys carrying bazookas. I wonder who painted that. Where do you come up with this stuff?

S Nice

What choice did I have? I had to rhyme something with chachoocas.

Kevin

All I know is Andre is not allowed talk. Three words.
Wall of wizards. I rest my case.

Andre

Kevin, I have three words for you. Tornado of fire. I rest
my case as well.

Olusayo

What about Mimi?

Mimi

What about me?

Kevin

Did you forget the battle of Babylon? Did you forget that
your energy blast caused a black hole and that every one of
our enemies was sucked into it?

Mimi

I forgot about that.

B4

That was crazy.

Kevin

You are not exempt B4. How many times have you
brought someone back to life by playing your bass guitar?
Worst case scenario is that we all die. It would not matter
because you could just resurrect us by playing your bass
guitar.

Andre

If I cannot talk, Random Tangerine cannot talk either.
Twenty words. Where did you get the idea of painting a
fire snake that breathes flames of fire snakes that breathe

flames? That destroyed half the army in the battle against the Philistines.

Gwendolyn

Let us not forget about my grandbaby.

S Nice

What kind of art form Jadesola is practicing? Do you think she knows Juhada?

Olusayo

We are not sure yet. All we know is that when she hits her enemies, they burst into green flames.

Dr. Bonkers

It looks like my husband and I are the only ones who need a space force.

Kevin

I beg to differ. You guys are singlehandedly responsible for the majority of Omega's cutting-edge technology, including weapons. Three words. Particle synthesizing equalizer. I rest my case.

Dr. Bonkers

You might be right. That is a pretty powerful weapon.

Kevin

You think?

Narrator

Everyone laughs.

Kevin

In light of our abilities, I still think a space force is a good idea. At the very least, it will provide order and structure.

S Nice
I know the perfect drill instructor.

Kevin
You read my mind.

II. Stacking Bodies

Drill Instructor

Good evening cock roaches. It is my job to break you down. It is your job to get back up. I will be stern. I will be cruel. I will insult you. I will insult your mother. You will hate me. I will hate you even more. Your existence is trivial and unnecessary. As we speak, you are wasting space and breathing my air.

Cadet

Your air?

Narrator

He says under his breath.

Drill Instructor

Excuse me!

Narrator

He says as he sprints to Cadet. He shouts in Cadet's face.

Drill Instructor

Who the fuck do you think you are? I will kill you where you stand! Do you want to jump? Jump you piece of shit. Jump to your death. I will ass fuck your mother while I fuck your ass up you bitch ass mother fucker! Get down and give me twenty thousand pushups! You have one minute.

Cadet

I cannot do twenty thousand pushups within...

Narrator

Drill Instructor chops Cadet in the throat and throws him on the ground.

Drill Instructor

Now you have ten seconds to complete twenty thousand pushups.

Narrator

Drill Instructor stands on Cadet's back. He makes Cadet count the pushups out loud.

Drill Instructor

Congratulations. You just bought every cadet five thousand laps. Everyone, get moving!

Narrator

The terrified cadets begin running laps around the Superwarp construction site. Drill Instructor meets with Kevin.

Kevin

Will they be ready by Christmas?

Champion

Can a whale fly?

Kevin

That is what I am talking about.

Narrator

Kevin breaks. The cadets run two thousand laps, and Champion stops them.

Champion

Water break.

Narrator

He shouts.

Champion
Come and get your water.

Narrator
The cadets look terrible. They are exhausted and dehydrated. Champion allows them to rehydrate.

Champion
I have something for you.

Narrator
The cadets meet Champion at his post. Champion places a one hundred pound vest on each cadet.

Champion
What are you waiting for? Get moving.

Narrator
The cadets crawl around the field.

Champion
My great grandmother can run faster than you and she is literally three thousand years old. Pick up the pace you pathetic maggots.

S Nice
Champion, do you have to be so hard on them?

Champion
Boot camp is ten percent physical and ninety percent mental. This is how we do it in the military.

S Nice
It seems so cruel.

Champion

My drill instructor had a saying. “Eat shit and die, or keep running and shut your pussy mouth.”

S Nice

What does that mean?

Champion

I was never certain what it meant. I think it means toughen up. Boot camp is supposed to make cadets mentally and physically tough.

S Nice

How do you know when they are tough enough?

Champion

You can see it in their eyes. You can see it in the way they walk. You can hear it in the way they talk. They become impervious to mental abuse. They become nearly impervious to physical abuse. Great soldiers focus on the task at hand. Great soldiers do not allow anything (including pain or abuse) to prevent them from accomplishing their goals. Boot camp is cruel because war is cruel. War does not care who your mother is. War does not care if you are black or white. Imagine a stealth soldier. Imagine that their task is to spy behind enemy lines. Imagine the enemies trashing the soldier's race or ethnicity. “Why are niggers so black? Why are niggers so stupid? Niggers deserve what is coming to them. I cannot wait to get me a nigger and beat him to death.” Now imagine the stealth soldier getting so angry that he gives away his position. Imagine the stealth soldier responding to the racial slurs. If he gives away his position, he will jeopardize his own life and the lives of his fellow soldiers. If he gives away his position, he has allowed mental abuse to prevent him from accomplishing his goal of remaining

hidden. By exposing the cadets to mental and physical abuse now, we are preparing them for war later.

S Nice

In that case, you are doing an excellent job.

Narrator

Champion notices that two cadets are taking an unauthorized water break. He immediately pulls a dozen cadets aside.

Champion

Do you see those two cadets?

Dozen Cadets

Yes.

Champion

I want you to trash them.

Dozen Cadets

Sir?

Champion

You heard me. When you are done, drag them back to me.

Narrator

The dozen cadets jump the two cadets and drag them back to Champion. Champion summons the rest of the cadets.

Champion

If we were at war, your actions would have killed us.

Cadet 2

We were thirsty.

Narrator

Champion elbows Cadet 2 in the face and breaks his nose. Cadet 2 is bleeding profusely. The other cadets are beginning to worry. They think Cadet 2's life is in jeopardy.

Cadet 3

Cadet 2 needs help.

Narrator

Champion punches Cadet 3 in the esophagus and kills him.

Champion

When you fail to follow the rules, you will die. I will not permit disobedience.

Narrator

The cadets are petrified.

Champion

If you read Radical Faith, you know who I am. You know that I will not hesitate to kill every one of you. There is only one rule in war. The rule is that there are no rules, and even that rule is contradictory. Get used to it. Learn to adapt. Learn to think on your feet. Line up!

Narrator

Champion hands out a gun to every other cadet.

Champion

If you have been given a gun, I want you to shoot the person next to you.

Narrator

No one shoots anyone. As a result, Champion shoots and kills twenty cadets.

Champion

I will repeat my instructions. If you have been given a gun, I want you to shoot the person next to you.

Narrator

Some cadets begin running away. Champion shoots and kills all eighty two fleeing cadets.

Champion

Now we will play Russian roulette. Find a partner.

Narrator

The cadets do as instructed.

Champion

Point your gun to your neighbors head and pull the trigger.

Cadet 5

What kind of game is...

Narrator

Champion punches Cadet 5 in the heart and kills him.

Champion

I will repeat my instructions. Point your gun to your neighbors head and pull the trigger.

Narrator

The cadets' hesitation angers Champion. He shoots and kills half the cadets. He begins stacking their bodies in a large pile. He demands that the remaining cadets help him stack the bodies. After two hours, all the dead bodies are stacked two hundred feet high. There are one hundred thousand dead bodies stacked. The pile looks like a giant wall.

Champion

I want each of you to climb to the top of the stack. When you get to the top, kill yourself and await further instructions.

Narrator

Not surprisingly, the cadets do not budge. They attempt to run away. Champion kills each fleeing cadet. Only ten cadets remain.

Champion

I will repeat my instructions. I want each of you to climb to the top of the stack. When you get to the top, kill yourself and await further instructions.

Narrator

The cadets tremble as they climb up the stack. One by one they shoot and kill themselves. However, one cadet is cunning. She pretends to kill herself. She lies on the top of the stack alive but playing dead.

Champion

If you are still alive, raise your hand.

Narrator

Every cadet in the stack raises their hand.

Champion

Congratulations. You have passed lesson one: “playing dead.”

III. Vapor Lessons

Champion

Today, I will teach you how to vaporize. Do I have any volunteers?

Cadet 8

I will try.

Champion

If you want to vaporize, you must know your surroundings. You must become one with your environment. Cadet 8, I want you to hide. I want you to blend with your environment. I will count to twenty five. Once I reach twenty five, your fellow cadets and I are going to look for you. It is just like playing hide and go seek. If we find you, we will shoot you. One. Two. Three. Four.

Narrator

Cadet 8 runs across the Superwarp construction site. She dives into some bushes. Champion and the cadets run right by her. Cadet 8 stays hidden for two hours. She does not want to be shot again. Champion calls out for her.

Champion

Okay. Cadet 8, you may come out now. You passed the test. We cannot find you. You have successfully vaporized.

Narrator

Cadet 8 does not trust Champion. She thinks he is crazy. She is not sure how long she intends to stay hidden. She is considering never coming out of the bushes.

Champion

Cadet 8, you may come out now. You have passed. There is no need to keep hiding.

Narrator

Cadet 8 remains silent. As Champion calls out for her, he unknowingly is coming closer to Cadet 8's location.

Champion

I respect your commitment to vaporize, but there is no need to keep hiding.

Narrator

Champion is now within five feet from Cadet 8's location. He detects movement in the bushes.

Champion

We give up. We cannot find you.

Narrator

Champion and the cadets are all within five feet from Cadet 8's location. She is considering running away, but she is too afraid. She jumps up and starts shooting.

Cadet 8

Leave me alone!

Narrator

Cadet 8 runs through the bushes. She hides under a bridge. Champion and the cadets stand on top of the bridge.

Champion

You have officially pissed me off. I told you that you passed. You did not believe me.

Cadet 9

I found her.

Champion

Bring her to me.

Narrator

Champion takes out his combat knife and stabs Cadet 8 in the thigh. Cadet 8 screams from the pain.

Cadet 8

Help me. Someone help me.

Champion

Help me. Someone help me.

Narrator

Champion mocks.

Champion

You failed the test. Now you are going to pay!

Narrator

Champion takes out another combat knife and stabs Cadet 8 in her other thigh. Both knives remain in each thigh.

Champion

You are losing a lot of blood. Someone should take a look at it.

Narrator

He says as he punches Cadet 8 in the stomach.

Cadet 8

Please stop. I am begging you.

Champion

I am just getting started. Cadets, tie her to the tree.

Narrator

The cadets do as instructed.

Champion

Are you left handed or right handed?

Narrator

Cadet 8 does not respond. She is going into shock. Champion turns both knives ninety degrees. Cadet 8 screams in agony.

Champion

Are you left handed or right handed?

Cadet 8

God help me.

Champion

God does not give a shit about you. God cannot save you.

Narrator

Champion turns both knives another ninety degrees. The cadets watch in torment.

Champion

This is your last chance. Are you left handed or right handed?

Cadet 8

I am right handed.

Narrator

Champion immediately breaks Cadet 8's right arm. Cadet 8 goes into shock. She is barely conscious.

Champion

You are bleeding profusely. You are in the middle of the forest. The mountain lions and wolves can smell your blood. Have a good night. If you die, it will make me very happy.

IV. Swimming Lessons

Champion
Jump inside.

Narrator
The cadets jump inside a large swimming pool. The pool is used for professional diving. It is forty feet deep and has no shallow end.

Champion
Your task is to swim for four hours. If you touch the wall, you die.

Narrator
The cadets begin struggling after the first hour. Several cadets begin to drown. The stronger swimmers try to help, but even they are becoming exhausted. Champion approaches the edge of the pool. He is carrying a large box.

Champion
Box jelly fish are deadly. You should avoid them.

Narrator
Champion throws hundreds of box jelly fish into the pool. Dozens of cadets are stung to death. Their bodies remain floating on the pool's surface. Champion approaches the group with another large box.

Champion
Alligators are fierce predators.

Narrator
Champion releases two alligators into the pool. The alligators begin attacking the cadets.

Champion

Work as a team. Use your head not your muscles.

Narrator

The cadets use the dead cadet bodies as alligator bait. They attract as many jelly fish as possible. When the alligators attack the bait, they are stung by hundreds of jelly fish.

Champion

Good job.

Narrator

Champion drags the dead cadet bodies out of the pool.

Champion

I am going to dispose of these pathetic cadets. Keep swimming.

Narrator

Champion breaks.

Cadet 9

The longer we stay, the more likely we will be killed.

Cadet 10

I say we attack Champion. I say we kill him.

Narrator

The cadets exit the pool. They run into the forest to locate Cadet 8. Cadet 8 is nowhere in sight. All that remains is a bloody necklace.

Cadets

Champion is dead!

Narrator

The cadets storm to the Superwarp site and see Champion eating lunch.

Cadet 9

You are a murderer. You will pay. We are tired of you breathing our air.

Narrator

The cadets drag Champion to the field and tie him to a pole. They trash him and shoot him. Champion hangs, lifelessly, from the pole. Just before Champion dies, he says on final thing.

Champion

You passed.

Narrator

Champion dies.

Cadet 9

We passed?

Cadet 10

What does that mean?

Cadet 11

How could he say that we passed if we killed him?

Christina

Hello cadets.

Cadet 9

You can talk?

Christina

You have never seen a talking humming bird before?

Narrator

The cadets are astonished.

Christina

Come with me.

Narrator

Christina leads the cadets to the front of the Superwarp construction site. To their surprise, every dead cadet is now alive. The cadets begin to feel remorseful.

Christina

I thought seeing your fellow cadets would please you.

Cadet 11

We saw Champion kill these cadets. We decided to put an end to the killings, so we killed Champion.

Christina

I am sorry to hear that. I have to be on my way. I wish the best of luck to you.

Narrator

Christina flies away.

Cadet 12

We need to remove Champion from the pole.

Narrator

The cadets discover Champion's absence.

Cadet 13

I do not want Champion's blood on my hands. It was not my idea to kill him.

Cadet 9

Yes it was. We all agreed to kill him. You never disagreed or tried to stop us. You are just as guilty for his murder as we are. Once we find his body, we need to bury him before anyone realizes he is missing.

Narrator

The cadets separate. For two hours, they search for Champion. They are unable to find him.

Cadet 9

How can a dead man escape from being tied on a pole?

Champion

That is a good question.

V. Alien Technology

Dr. Bonkers
Everyone stand back.

Narrator
Doctor Bonkers links the circuits, and the warp drive is initiated. The crew cheers.

Dr. Bonkers
We are officially powered for warp drive. The Superwarp now produces its own solar fusion energy.

Kevin
You made it look easy.

Dr. Bonkers
There was not much to it. Once we calibrated the proton sensors, rerouted the energy anomaly, remapped the isotope topography, energized the cabooses rift, and contained the nuclear core, it was a cakewalk from there.

Kevin
I will just have to take your word for it.

Narration
Kevin jokes.

Kevin
What is the next step?

Dr. Bonkers
Now that we have solar fusion energy, we will begin working on the life support systems. Your laborers have been building the foundation. They are now cleared to build upward.

Kevin
Perfect. I will inform the crew.

Narrator
Kevin walks to the sleeping quarters to meet his family.

Gwendolyn
Are you planning to transport everyone on Earth?

Narrator
She jokes.

Kevin
I wish.

Nama
What are they doing now?

Kevin
They are going to start building upward.

Donte
How big is it going to be?

Kevin
It will be ten miles long, ten miles wide, and twenty stories high. It should comfortably accommodate up to fifty million people.

Random T
It kind of reminds me of the Elliptical.

S Nice
Should we help build?

Kevin

That is up to you. Our main job is to protect the Superwarp and the people working on it. Fortunately, we have some new helpers. Champion has finished training the cadets. They are ready for combat.

Donte

That was fast.

Kevin

Champion uses some very questionable methods, but he always gets the job done.

Donte

That is an understatement. I heard B4 had to resurrect Champion and almost every cadet.

B4

It was no problem.

Kevin

How is Jadesola doing?

Narrator

Olusayo hands Jadesola to Kevin.

Kevin

How are you doing?

Jadesola

Fine.

Kevin

Are you protecting your mother like I asked you to?

Jadesola

Yes.

Narrator
Jadesola smiles.

Mimi
How long will it take to arrive in Omega?

Kevin
Doctor Bonkers estimates that it will take one to three weeks.

Andre
Cruising the universe.

Random T
Space.

Akeeba
Have you had any dreams lately?

Kevin
I had one last night, but I am not sure what it means.

Gwendolyn
Tell us.

Kevin
I saw Hakeen and Arpeggio fighting together. Should we be worried?

Olusayo
You killed Arpeggio. Plus, there is no way Arpeggio would fight with Hakeen.

Gwendolyn

Arpeggio fighting against Hakeen, I can see. Arpeggio fighting with Hakeen, I cannot.

Kevin

That is what I thought.

Narrator

Champion approaches.

Kevin

You did a great job with the cadets. They are fearless.

Champion

Thank you. My cadets have officially graduated and become soldiers.

Narrator

Champion walks to B4 and shakes his hand.

Champion

Thank you for bringing us back to life.

B4

It was no problem.

Champion

I have soldiers surrounding the site. I am going to check our inventory.

Narrator

The Superwarp site looks like one big block party. People are eating. Music is playing. The weather is perfect. The Superwarp site is one hundred square miles. It resembles a large metropolitan city. It is enclosed by a high electric fence. The fence is trimmed with barbed wire. There are space force posts every twenty feet. Each post is manned

with two soldiers and two machine guns. There are construction materials, construction vehicles, metal, and scraps all over the place. The Superwarp is being built near the center of the site. Surrounding the Superwarp are the sleeping roofs. Each roof houses two to four people. It looks like a city of teepees. The residents from surrounding cities have come to the construction site to observe the Superwarp's progress. Most of the world believes Radical Faith believers are crazy. They believe they are wasting their time and money. However, the media coverage increases every day. Each day, one can see measurable progress. This is due to the fact that fifty million people are working on the Superwarp every day. No one is allowed inside the site except those working on the Superwarp. News reporters often come to the outer gates to interview Radical Faith believers.

Reporter

Can I have a minute of your time?

Believer

Okay.

Reporter

How long have you been a Radical Faith believer?

Believer

I have been a believer since I was sixteen. I am now twenty six.

Reporter

You believe there is a galaxy called Omega?

Believer

Absolutely.

Reporter

What proof do you have?

Believer

Have you looked around lately? Look at this place. It is spectacular. Give it a few more months, and you will be blown away.

Reporter

I look forward to it. Tell us. Where is Omega exactly?

Believer

I have never been there, but I know it is only a few hundred light years away.

Reporter

Is it true that you believe Judgment Day is coming to Earth this Christmas?

Believer

That is what the gospel of Radical Faith says.

Reporter

Radical Faith is just a book.

Believer

Have you ever read it?

Reporter

No.

Believer

Maybe you should. You still have time. Repent of your sins and let Radical Faith save you.

Reporter

No thank you. I refuse to believe such an extravagant story.

Believer

You will be sorry.

Reporter

I will take my chances.

Believer

I will pray for you. I will pray that you see the light. I will pray that you repent of your sins and make Radical Faith your lord and savior.

Reporter

What if you are wrong? What if the gospel of Radical Faith is a lie? What if Omega does not exist?

Believer

What if you do not exist?

Reporter

Of course I exist. I am standing right here talking to you.

Believer

So am I. Behind me, you can see the greatest construction project known to man. Not only will it be the largest manmade structure ever built, it will be the most advanced transportation device in Earth's history. I know Omega exists because the technology being used to build the Superwarp is godlike. It is the most advanced technology that I have ever seen.

Reporter

Can you talk to Radical Faith for me? I would like to tour the Superwarp.

Believer

Radical Faith has made it clear. No one goes in and no one comes out. This is to ensure the safety of Radical Faith believers and the safety of the Superwarp.

Reporter

You are locked in like a prisoner. How does that make you feel?

Believer

You are locked out and will die on Judgment Day unless you repent. How does that make you feel?

Reporter

Point well taken.

Believer

Kevin will be issuing an announcement soon.

Reporter

What will he be announcing?

Believer

Watch and see.

ARCHIVE FIVE – Last Days

I. Prophetic Word

Narrator

The largest news broadcast in the country is scheduled to speak with Kevin at the front gate. Millions of people surround the site in anticipation for the interview. The Superwarp is now about ninety percent complete. Millions of people marvel at the gargantuan structure. It is like viewing a city of sky scrapers. It is by far the largest manmade structure ever built (on Earth). To put its size into perspective, it is one million times larger than a commercial cruise liner. The world is truly in awe.

Reporter

Thank you for meeting with me.

Kevin

The pleasure is mine.

Reporter

How does it feel to be worshiped like a god?

Kevin

I have said it before, and I will say it again. I am not a god, and I have no interest in being worshipped. I am a human just like you.

Reporter

How do you know Omega is real?

Kevin

We have been over this already. I am not answering that question again.

Reporter
What is Juhada?

Kevin
If you want to know what Juhada is, read Gift of Time.
Next question.

Reporter
What can you tell us about Omega?

Kevin
Omega is our destination.

Reporter
I am just trying to ask questions. There is no need for hostility.

Kevin
I am not hostile. Believe me. If I was hostile, you would not still be standing here.

Narrator
Reporter senses that it is a good time to change the line of questioning.

Reporter
Christmas is only one month away. Do you have any suggestions?

Kevin
I suggest you find a good hiding place.

Reporter
How bad could one man be?

Kevin

Ebiasaph is not a man. He is a supreme being. He has superhuman powers.

Reporter

I am so scared.

Kevin

You should be. Ebiasaph has never lost a battle. Many people believe that he cannot be killed.

Reporter

Not even by the great Kevin of Omega?

Kevin

We will find out soon enough.

Reporter

Does that mean you are going to stay and fight?

Kevin

I have no intention of staying. We are launching the Superwarp on Christmas Eve.

Reporter

You are going to leave everyone else to die?

Kevin

I cannot save everyone. I am doing my best to save as many people as I can. As you know, I liquidated all my assets. I initiated and supervised this massive Superwarp project. If I had more time and money, I would build more Superwarps and save more people. For the last ten months, many wealthy individuals laughed and scorned our Superwarp project. Now that we have built it, they want to join forces. I am sorry, but it is too late. Everyone had a

chance to see the light. I may not be able to save everyone, but I will save as many as I can.

Reporter

What gives you the right to select who lives and who dies?

Kevin

That is a question for Ebiasaph not me.

Reporter

When we spoke on the phone, you said you had a prophetic word.

Kevin

In the book of Judgment Day, there are seven plagues. The plagues are now at hand.

Narrator

Kevin's comment causes chaos in the crowd.

Reporter

What kind of plagues? Are they like the plagues in the bible?

Kevin

They are worse than the plagues in the bible. The plagues will test the mind and the body. They will turn people against each other. Radical Faith believers have prepared for these plagues. We studied the book of Judgment Day. We know exactly what is coming. I suggest you do the same.

Reporter

When will the first plague strike?

Kevin

It can strike at any moment now. Each plague will occur without notice. Store plenty of food and water. Stay hidden and keep your fingers crossed.

Narrator

Kevin and Reporter conclude their interview. News of the plagues spreads quickly. It is on every channel. Nonbelievers are becoming anxious. Many are still convinced that Radical Faith is fictional. However, some are taking the necessary safety precautions.

II. Heat Wave

Akeeba

Do you really think it will reach one hundred eighty degree Fahrenheit?

Donte

That is what the book of Judgment Day says.

Akeeba

I miss Omega.

Donte

Me too.

Akeeba

I feel like I am in a movie.

Donte

Why is that?

Akeeba

It is like we have been given the script to the future.

Donte

True.

Akeeba

How far down are we supposed to dig?

Donte

It says we must dig a tunnel that is at least fifty feet below the surface.

Akeeba

In that case, we better speed it up.

Narrator

Dr. Bonkers spread a special chemical that softens the ground and soil. The chemical eases the strain of digging. Consequently, every person in every teepee is digging a fifty foot tunnel underground. The tunnels each begin from the center of the teepee. From a spectator's view, it looks like everyone is hibernating. For the last eight hours, no one has emerged from their teepee. Although some spectators have gone home, many remain at the site to observe Radical Faith believers. News reporters are encamped around the site. The spectators have no clue what is transpiring inside the site. Once Donte and Akeeba reach fifty feet in depth, they hear Gwendolyn's voice.

Gwendolyn

This is pretty cool man. I feel like I am inside an ant farm.

Akeeba

Where are you?

Gwendolyn

You have to keep digging. Everything connects.

Donte

The book of Judgment Day said to dig at least fifty feet.

Gwendolyn

If you are already fifty feet below, then start digging straight ahead.

Narrator

Akeeba and Donte follow Gwendolyn's voice and find her.

Donte

How did you dig so fast? We started at the same time, did we not?

Gwendolyn

Nama and Andre wanted to make it a race. They raced B4 and Random Tangerine.

S Nice

You guys are having a party without me?

Narrator

S Nice jokes.

Mimi

S Nice, is that you?

S Nice

Yeah.

Mimi

Where are you?

S Nice

You have to keep digging. Dig straight ahead.

Narrator

Each individual tunnel connects to a larger tunnel. The larger tunnels connect to a large underground fortress. Millions of believers are congregating in the center of the fortress. People are eating, laughing, playing games, dancing, and playing music.

Olusayo

Are you sure we are going the right way?

Kevin

The book of Judgment Day says to dig fifty feet down.

Olusayo

We are already fifty feet down.

Kevin

I wish it was not so dark. I cannot see what direction we are digging.

Olusayo

I just realized something.

Kevin

What?

Olusayo

It is completely dark. No one knows where we are.

Kevin

Do not be afraid. We will find our way through this stupid tunnel.

Olusayo

I am not afraid.

Kevin

You are not making any sense.

Olusayo

Jadesola is with Gwendolyn. No one knows where we are, and it is completely dark.

Narration

Kevin rips Olusayo's clothes off and pins her against the wall. He is rock hard.

Olusayo
Pound me like you love me.

Narrator
After several hours, Olusayo and Kevin meet up with the group.

Donte
What happened to you guys?

Mimi
Why are your clothes torn?

B4
Were you beat up?

Olusayo
You could say that.

B4
Who beat you up?

Narrator
Kevin quickly changes the subject.

Kevin
Look at the fortress. It is breath taking.

Narrator
The group reunites with the other believers in the fortress.

Mimi
Listen to this. “The sun will turn blood red. It will appear to increase in size. It will appear ten times larger. The heat will be unbearable. The temperature will reach one hundred eighty degrees Fahrenheit. Everyone on the

surface will perish. The sun will rule the sky for three days and will not set. Retreat underground. Take food and water with you. This is the first of seven plagues. You have been warned.”

Gwendolyn

What section is that?

Mimi

It is under “Heat Wave.”

Narrator

The group joins the celebration. They enjoy music and good food. Radical Faith believers worship Radial Faith. They worship each member as a god.

Believer

May I have a moment of your time great and powerful Andre.

Narrator

He says as he bows and worships Andre.

Andre

You do not have to do that.

Believer

You are the great and powerful Andre. You are worthy of my praise.

Andre

I am not a god.

Believer

How can you say that?

Andre

It is true. I am not a god.

Believer

You are hundreds of years old. Yet, you have not aged. We worship you as a god because you have the keys to immortality. You can create anything in your imagination by using rhyme. We worship you as a god because you have the keys to creation. You are as godlike as they come. May I ask you a question great and powerful Andre?

Andre

Certainly.

Believer

What makes you so great? What makes you so awesome? What makes you unlike any other god?

Andre

That is not a question. That is three questions.

Believer

Forgive me your highness. My mere human intellect betrays me.

Believer 2

Mimi the Amazing, you are the god of song and dance. I am currently fasting. To gain your blessing, I have not eaten in three days.

Mimi

I appreciate the gesture, but fasting is not healthy. If you want my blessing, all you have to do is ask.

Believer 2

I thought fasting would please you. In the bible, people fasted to get their god's attention. Even Muhammad fasted.

Mimi

The bible also says to treat your body like a temple. Treating your body like a temple requires taking care of it. Fasting is not healthy. It can raise one's blood pressure to unsafe ranges. It can lower one's blood glucose to dangerous levels. It can cause eating disorders. It also robs the body of essential fluids and nutrients. I am not a proponent of fasting.

Believer 2

How can I please you great god of song and dance?

Mimi

You can please me by being a good person and helping others.

Believer 2

I can do that. Thank you your highness.

Believer 3

B4, you hold the keys to the afterlife. You have resurrected thousands of people. You are worthy of my praise. You are truly the most powerful god.

B4

I guess.

Believer 4

Random Tangerine, you are my lord and savior. Your puzzle solving abilities are unmatched by any god in the universe. I strive to be more like you. I pray to you every night.

Random T
Lord and savior?

Believer 5
Gwendolyn, I worship you. You are the god of guitar and song. I pray that you will give me strength when I am weak. I am not worthy to look at you. All who look upon your face will surely die.

Gwendolyn
Are you saying that I am ugly?

Believer 5
No your majesty. It is out of respect that I shield my eyes from the beauty of your face.

Gwendolyn
How do you know I am beautiful if you have never seen me?

Believer 5
I have heard from others that you are beautiful.

Gwendolyn
If they are still alive, they must have not died when they looked at me.

Believer 5
Your insight is supreme. I pray that you will increase my insight.

Narrator
Believer 5 continues covering his eyes and walks away.

Believer 6

S Nice, you are the god of spirit and truth. What must I do to gain your acceptance?

S Nice
Nothing.

Believer 6
Please have mercy on me. I will do anything you ask.
What must I do?

S Nice
Nothing.

Narrator
Believer 6 bows to the floor and kisses S Nice's feet.

Believer 6
Please give me a chance.

S Nice
I accept you as you are.

Believer 7
Akeeba, you are the god of melody. I offer my infant child as a sacrifice.

Narrator
Believer 7 takes out a knife and attempts to kill his child.
Akeeba dives to save the child. She stops Believer 7 just in time.

Akeeba
What the hell is wrong with you?

Believer 7
I was trying to please you.

Akeeba

Well, you failed! What possessed you to sacrifice an innocent child?

Believer 7

I got the idea from Abraham.

Believer 8

Donte, you are the great god and master of the drum. How can I please you?

Donte

You can start by not calling me a god.

Believer 9

Nama, you are the god of joy and spirit. What must I do to be saved?

Nama

I require a full course meal.

Believer 9

Okay.

Nama

I require a pedicure and manicure.

Believer 9

I can do that.

Nama

I require a neck and shoulder massage every four hours.

Believer 9

I will see to it that your needs are met. What else do you require your majesty?

Nama
I require...

Gwendolyn
Nama.

Narrator
She says as she pinches her.

Nama
Ouch.

Believer 9
What else do you require your majesty?

Nama
That is all.

Believer 10
You are the great Kevin of Omega. You are the god of passion, vision, and strength. What must I do to please you?

Kevin
I have said it before, and I will say it again. I am not a god, and I have no interest in being worshipped. I am a human just like you.

Believer 11
Olusayo, you are the god of love, patience, and wisdom. What must we do to please you?

Olusayo

I require nothing. I will defend Radical Faith believers. I will defend the Superwarp and Omega. I will do this regardless of your praise and worship. With that being said, a foot massage would be nice.

Narrator

Instantly, the believers begin diving at Olusayo's feet.

Olusayo

Please. One at a time.

Believer 12

Jadesola, you are the god of focus and love. What must we do to please you?

Narrator

Jadesola is still very young. She can only say a few words and phrases.

Jadesola

Candy. I like candy.

Believer 12

Do not just stand there. Someone get this woman some candy!

Narrator

The hundreds of onlookers rummage around the fortress and locate a box of caramel popcorn.

Believer 12

Forgive us your highness. We were unable to find candy. All we found was this delicious box of caramel popcorn.

Narrator

The onlookers observe Jadesola as she eats the caramel popcorn. She appears to enjoy it, and the onlookers rejoice.

Believer 12

We are happy that the popcorn pleases you great Jadesola.

S Nice

How long do you think the people will worship us?

Mimi

They will probably worship us forever. Once they see our display of pure music, they will likely worship us even more.

Kevin

I am not looking forward to that.

Olusayo

We are kind of like gods. We have the keys to eternal life. We can resurrect people from the dead. We can fly, paint, and teleport. We can travel to any location in the universe. Plus, Kevin has been chosen and knows Juhada. How cool is that?

Kevin

I still do not like people worshipping me.

Olusayo

People are going to worship you. Get used to it.

Narrator

Above the surface, things are beginning to heat up.

TV News

We are experiencing a massive heat wave. The temperatures are off the charts. Temperatures are topping

one hundred thirty degrees. These are the hottest temperatures ever recorded. People are advised to stay indoors. Drink plenty of water. Do not go outside for any reason.

Narrator

All over the world, temperatures are climbing well above one hundred thirty degrees. Some nonbelievers have not read the book of Judgment Day and had no idea the heat wave was coming. Conversely, many nonbelievers have read the book of Judgment Day and hid underground just in case. Worldwide temperatures now exceed one hundred fifty degrees. The streets are completely empty. Electric transformers are exploding every second. Buildings are collapsing. Idle vehicles are spontaneously combusting. Bridges are collapsing. Due to the lack of electricity, the internal temperature of many homes is above one hundred fifty degrees. People are being cooked alive. Some people attempt to take refuge in their basement. Nonetheless, they are cooked alive in their basement. Birds are falling out of the sky. Planes are falling out of the sky. Many trees have caught on fire. The asphalt and streets are destroyed. The temperature is now one hundred eighty degrees. After three days, the temperatures return to normal. People begin coming to the surface. The devastation is tragic. The streets are covered with dead bodies. Human bodies lie on animal bodies and vice versa. One third of Earth's human population was killed by the heat wave. This causes an immediate uproar. People are demanding answers. People march to the Superwarp construction site.

Nonbeliever

We demand to speak with Kevin!

Soldier

Champion, do you copy?

Champion
I copy.

Soldier
There is a large mob of people outside. They say they want to speak with Kevin. Over.

Champion
Are they friendly or hostile? Over.

Soldier
They are hostile. Over.

Champion
10-4. I will notify Kevin. Over and out.

Soldier
Copy.

Champion
Kevin, some very angry people are outside wishing to speak with you. Would you like me to get rid of them? I have machine gunners on every post.

Kevin
Let me see what they have to say.

Narrator
Kevin meets the people at the front gate.

Kevin
How can I help you?

Nonbeliever
How could you do this?

Kevin
Do what?

Nonbeliever
You caused innocent men, women, and children to die.

Nonbeliever 2
You are a murderer.

Nonbeliever 3
You are a terrorist.

Kevin
Hold on a second.

Nonbeliever 4
You are going to pay for this.

Kevin
But I...

Nonbeliever 5
Look at your work.

Narrator
Nonbeliever 5 carries a dead three year old girl to the front gate. Her body has been burned and mutilated. Kevin can barely look at her.

Nonbeliever 5
Look at your work you murderer!

Narrator

Kevin knows the people are hurt. He stands there and takes the verbal abuse. After people have calmed down, they begin asking him questions.

Nonbeliever 6

Why is this happening?

Kevin

There are six plagues left. I advise you to follow the instruction in the book of Judgment Day. That is what we are going to do.

Nonbeliever 7

Why are you doing this to us?

Kevin

I am not doing anything. Ebiasaph is responsible for this. He is the one with the blood on his hands. I warned you about Judgment Day for nearly one year. Nneka warned you about Judgment Day for the last thirty years. You refused to believe her, and you refused to believe me. You were stuck in your ways and refused to listen to reason. You had your chance to join us. Your time has passed. You must fend for yourselves. Like I said before, I am just a human. I am trying my best to save as many people as I can. I cannot save all of you. It is up to you to save yourselves.

Believer 7

I am a believer now.

Kevin

It is too late. I told you Radical Faith was real. I told you that Omega exists. I told you I would provide you with proof. I told you I would build a Superwarp. Well, look behind me. There is your proof. Notice that the Superwarp

is the only structure left standing. I wonder why. Could it be because we built it with a metal that only exists on Omega 4? Could it be because Doctor Bonkers created a synthetic molecular insulating force field? The Superwarp is standing thanks to advance technology. You have seen the book of Judgment Day come to life. You have seen the first of seven plagues. Your stubbornness prevented you from questioning your beliefs. If you had interrogated your own belief system, you would have learned that it was evil. Only then would you have been able to see the light. Only then would you have been able to accept Radical Faith. You say you are a Radical Faith believer? You cannot fool me. You are not a believer. You are a coward.

Believer 7

I am not a coward.

Kevin

You are afraid you are going to die. Your fear is prompting your beliefs.

Believer 7

I was wrong to doubt Radical Faith.

Kevin

You were not wrong to doubt Radical Faith. You were wrong to not doubt your current belief system. To be specific, you were wrong to not doubt the bible. Doubt yields investigation and analysis. Investigation and analysis yields knowledge. Knowledge yields power. Power yields action. The Superwarp is a result of that process. In other words, you snooze you lose.

Believer 7

I believe. Please do not leave me here. Let me come with you.

Kevin

Your intellectual and investigative stagnancy will cause you to lose your life and your soul.

Narrator

The crowd becomes frantic.

Kevin

Even if you survive the plagues, you will not survive Ebiasaph and his army.

Believer 8

You are the great Kevin of Omega. Surely you can do something to stop Ebiasaph.

Kevin

Ebiasaph is the strongest enemy that Radical Faith has ever faced. If we are going to fight him, we are going to do it on our terms. If we are going to fight him, we are going to fight him in Omega. I suggest you enjoy the time you have left. Spend it with your family and friends. Remember the good times you had on Earth. I wish I could save all of you. I really do. Unfortunately, I am just a man.

Narrator

Kevin walks inside the Superwarp. The new believers stay outside the gate. Night after night, the new believers sleep in the streets around the Superwarp. People, from every part of the globe, gather around the Superwarp site. They have all become Radical Faith believers. They hold church services outside the site. They teach the gospel of Radical Faith. The new believers are not being destructive or inappropriate. They are being gentle and kind. They are showing each other love and respect. People, from every religion and culture, are fellowshiping with one another.

They all believe that Radical Faith can save them. The next plague is coming, and the people have not taken refuge. Kevin is becoming saddened. He wishes he could save them.

Gwendolyn
Do not let it get to you.

S Nice
You have to let it go. Just let it go.

Kevin
I am trying.

Nama
Kevin, come look at this.

Narrator
Nama says with urgency.

Kevin
What is it?

Nama
Just come and see.

Narrator
Kevin follows Nama outside. He is stunned. There are nearly one billion people surrounding the Superwarp site. Every person is wearing a Radical Faith tee shirt. Every child is holding a sign that says, "Please Save Us." Kevin looks to the sky then back at the children. He takes a deep breath.

Kevin
Son of a bitch.

III. Face to Face

Gwendolyn
Kevin, you do not have to do this.

Kevin
Yes I do.

Sword Clash
ttttmmm!

Vincent
Let me do the talking.

Arch Angel
How can I help you?

Vincent
My name is Vincent the Director.

Arch Angel
Who is your friend?

Vincent
Oh. Him? Yeah. He is ummm...

Arch Angel
What is your name?

Kevin
My name is Johnathon.

Arch Angel
If you are here to see Ebiasaph, you will have to come back later. He is currently tending to his concubines.

Vincent

We are not here to see Ebiasaph. We are here to see Hakeen.

Arch Angel

You may enter.

Narrator

Kevin and Vincent pass through the pearly gates of Arcadia. Arcadia looks remarkable. The streets are paved with gold. Lushes trees and plants are plentiful. Arcadia sparkles like a diamond. From the distance, one can see the Garden of Eden.

Vincent

There is Hakeen. Come on.

Narrator

Hakeen is training billions of angels.

Hakeen

Vincent, how have you been?

Vincent

I have been okay.

Hakeen

Who is your friend?

Kevin

My name is Johnathan.

Vincent

Hakeen, I need to ask you a favor.

Hakeen

Sure. What is it?

Vincent

I need you to skip Earth and Omega.

Hakeen

What do you mean skip Earth and Omega?

Vincent

I know why you are training billions of angels. You are preparing for Judgment Day.

Hakeen

Who told you that?

Vincent

I thought you were supposed to be my friend. How could you keep this from me?

Hakeen

I am sorry. I was waiting for the right time to tell you.

Vincent

I need you to skip Earth and Omega.

Hakeen

Why Earth?

Vincent

Kevin is from Earth.

Hakeen

Who is Kevin?

Vincent

I mean...

Kevin

Kevin is my friend on Earth.

Hakeen

Earth has never and will never be skipped. Earth is one of Ebiasaph's favorite planets. Ebiasaph puts people through hell on Earth, and they still worship him. The faithful souls grown on Earth are tender and juicy. Ebiasaph will not allow me to skip Earth.

Narrator

Kevin clinches his fists.

Vincent

What about Omega?

Hakeen

Omega is different. Master Lee lives in Omega. Plus, Ebiasaph heard about a new group called Radical Faith. Ebiasaph thinks attacking Omega might be too risky.

Kevin

You leave the strong alone, but you attack the weak?

Hakeen

Those are the rules of war.

Narrator

Kevin's passion is rising to Juhada level.

Kevin

Those are not my rules of war. My rules say the opposite. I attack the strong and leave the weak alone.

Vincent

I was told Ebiasaph was tending to his concubines.

Hakeen
He loves his two Ps.

Vincent
Two Ps?

Hakeen
Ebiasaph loves getting putang and praise.

Vincent
Johnathan has never met Ebiasaph. Do you think you can introduce him?

Narrator
Hakeen leads them through the temple to Ebiasaph's throne. Ebiasaph's chamber doors are closed and locked.

Angel
Oh god. Oh god.

Angel 2
Oh god. Oh god.

Hakeen
Give him a second. He is just about done.

Angel 3
Oh god. You are all up in this putang!

Ebiasaph
Oh god.

Narrator
Ebiasaph finishes and opens his door.

Ebiasaph
Hakeen, how can I help you?

Hakeen
I have a friend who would like to meet you.

Kevin
My name is Johnathon.

Ebiasaph
No it is not.

Kevin
Excuse me.

Ebiasaph
Your name is not Johnathon.

Narrator
Kevin glances at Vincent and tries to play it off.

Kevin
Of course it is.

Ebiasaph
I am all knowing. I know your real name, and I know you did not come here to talk.

Kevin
If my name is not Johnathan, then what is it?

Ebiasaph
Your name is jungle fever.

Kevin

What?

Ebiasaph

Check out the ass on Angel 4. She is yours if you want her.

Kevin

I am married.

Ebiasaph

So was King David. So was King Solomon. They each had many wives and banged hundreds of concubines. I approved it. I am giving you approval to bang as many angels as you want.

Angel 4

I am waiting Johnathon.

Narrator

She says as she gets into the doggy style position.

Kevin

I am not interested. She does have a fat ass though.
Goddamn.

Ebiasaph

If you do not have jungle fever, why are you in my chambers?

Kevin

I have come to ask you to skip Earth.

Ebiasaph

Skip Earth?

Kevin

I ask that you do not bring Judgment Day to Earth. Pass it over.

Narrator

Ebiasaph bursts into laughter.

Ebiasaph

Pass Earth? You want me to pass Earth?

Narrator

He says while laughing.

Ebiasaph

I like this guy. I am going for round two with my concubines. You are welcome to join me.

Narrator

Angel 3 and Angel 4 are completely naked. Angel 3 walks to Vincent. Angel 4 walks to Kevin. They each press their soft tangos against Vincent and Kevin's crotch. While pressed against their crotch, they slowly bend over and rock their tangos back and forth. Kevin takes off sprinting.

Vincent

Kevin, where are you going?

Kevin

I have to get out of here while I still can!

Angel 3

You do not have to go.

Narrator

She says as she places her hand over Vincent's crotch.

Angel 3

You can stay here with me.

Vincent
Goddamn.

Narrator
Vincent takes off sprinting.

Vincent
I am right behind you Kevin!

IV. Vertigo

Olusayo

Babe, what is wrong? You look really nervous.

Narrator

Kevin is breathing heavily.

Olusayo

Have you been running?

Kevin

Yeah, I...

Narrator

Kevin tries to clear his throat. He is slightly choking.

Olusayo

Are you okay?

Kevin

I had to get out of there.

Olusayo

Why? What happened?

Narrator

Kevin leads Olusayo to a private room.

Kevin

I have a lot of sexual tension right now.

Narrator

Olusayo instantly removes her clothes and grabs Kevin's crotch.

Olusayo

We should do something about that.

Kevin

I fucking love you.

Olusayo

I know.

Narrator

For the next hour, Kevin and Olusayo screw each other's brains out.

S Nice

“During the last days, there will be a time where standing on the sky will be easier than standing on the ground. Plant your feet on solid ground least you be flung into outer space. This is the second plague. You have been warned.”

Gwendolyn

I do not like the sound of that.

Donte

What does it mean by solid ground?

Random T

We need to strap down the Superwarp.

Nama

Why?

Random T

Gravity is what holds us down. Without gravity, we would float into space.

B4

Does that mean the Earth is going to stop spinning?

Random T

That is a good question. Hold on.

Narrator

Random Tangerine gets Doctor Bonkers.

Dr. Bonkers

How can I be of service?

B4

If there is no gravity on Earth, would the Earth stop spinning?

Dr. Bonkers

The Earth's spinning is actually unrelated to gravity.

B4

I thought the spinning is what kept us from flying off the Earth.

Dr. Bonkers

Surprisingly, that is what most people believe.

Andre

If the spinning of the Earth is not what keeps us on the Earth, what does?

Dr. Bonkers

Gravity does.

Andre

What is gravity?

Dr. Bonkers

The force of gravity can be measured by $E=MC^2$. Objects with mass, attract other objects with mass.

Akeeba

I still do not get it.

Dr. Bonkers

Think of gravity like a magnet. Think of Earth as one big magnet. Earth is much larger than a human. Therefore, humans are stuck on earth like magnets. In contrast, Earth is not too much larger than the moon. Therefore, the moon is not stuck on Earth. Instead, the moon is stuck in the Earth's orbit.

B4

I think I understand.

Dr. Bonkers

Why the sudden interest in physics?

S Nice

It is the second plague. Apparently, there will be no gravity.

Dr. Bonkers

This, I have to see.

Mimi

Where is Kevin? I thought he came back already.

Random T

He went to talk with Olusayo.

Mimi

There you guys are. How did your meeting go?

Kevin
It did not go very well.

Gwendolyn
Were you able to meet Ebiasaph?

Kevin
Yes.

Gwendolyn
What did he say?

Kevin
He did not say anything. When I asked him to skip Earth,
he laughed in my face.

Donte
That is not cool.

Kevin
I also met Hakeen.

S Nice
Was he nice?

Kevin
You tell me. Hakeen believes in attacking the weak.

S Nice
Hakeen is a coward.

Kevin
You got that right.

Nama
What else did he say?

Kevin

He said that Ebiasaph heard about us. He heard about Radical Faith.

B4

Is that good or bad?

Kevin

It might be good. Ebiasaph is considering skipping Omega. He thinks it might be too risky.

Donte

I am ready for Ebiasaph.

S Nice

I will paint all over that coward. I will paint Ebiasaph painting Ebiasaph getting stomped by the Ebiasaph painting Ebiasaph. Ebiasaph will be so confused that he will have no choice but to die.

Random T

Kevin, we need to strap down the Superwarp. If we do not, it will float into space.

Kevin

Okay.

Gwendolyn

What about all the new Radical Faith believers?

Kevin

I am going to figure out a way to save them.

Narrator

Kevin walks outside. The new believers are still wearing their Radical Faith tee shirts. The children are still holding signs that say, "Please Save Us." Kevin informs Champion about the second plague. He asks him to formulate a plan and address the new believers.

Champion

We do not have much time. We have to strap down the Superwarp and dig more tunnels for all of you. Radical Faith is going to save you.

Narrator

The new believers cheer.

Champion

Grab a shovel.

Narrator

After everyone grabs a shovel and goes inside, Champion instructs the soldiers to lock the gate. Men, women, and children begin digging. The plague can strike any moment, so everyone must dig throughout the night. Champion and his soldiers strap down the Superwarp. When morning comes, everyone is underground. Champion calls a meeting in the main fortress.

Champion

Let me have everyone's attention. Soldiers are passing out individual straps. You should find a location, and strap yourself down. Each adult strap is twenty feet. Each child strap is ten feet. The strap lengths were selected for your safety. In the event that gravity is abruptly restored, the furthest each adult will fall is twenty feet. The furthest each child will fall is ten feet. It is essential that everyone remains strapped until this plague is over.

Narrator

The day goes by without incident. There are several huge fortresses. Each fortress is full of ecstatic believers. Kevin is still trying to figure out how he is going to transport all these people. Christmas is in seven days which means Earth is scheduled for one plague per day. The Superwarp still needs work. It is functional but has several kinks that need to be worked out. The night is quiet. Believers lie on the floor safely below the surface. However, they are not lying on the surface by the morning. By morning, everyone is lying on the air.

Andre

Random Tangerine, wake up.

Random T

What is...

Narrator

He realizes he is ten feet above the floor.

Random T

This is kind of cool.

Narrator

Everything above the surface is floating into the sky. Bridges, houses, dilapidated buildings, cars, trains, trees, dead animals, dead bodies, rivers, and oceans are all floating in the sky. They gradually heighten until they reach outer space. While destruction is occurring above the surface, celebration is occurring below the surface. The feeling of weightlessness has turned the underground refuge into an underground space party.

Believer 13

I am flying like a bird.

Believer 14

Check me out. I am flying like an eagle.

Narrator

Believers forget about Judgment Day. They are having the time of their lives. After four hours, gravity is restored and all the believers drop to the ground.

Believer 14

Heads up!

Narrator

The believers hit the ground. They are shaken up, but no one is seriously injured by the fall.

Champion

As a safety precaution, I want everyone to stay strapped until midnight.

V. Acidic

Pastor

The third plague should not affect us since we are underground, right?

Kevin

I think we are far enough below the surface.

Champion

What about the Superwarp?

Dr. Bonkers

The Superwarp should not be affected. I have activated the ship's force fields.

Kevin

Good.

Believer 15

That was my favorite part. You must have been nervous.

Random T

I was nervous at first, but I remembered who I was. Sometimes in life, we forget who we are. We let people tell us otherwise. We begin to believe the negative things people say about us. We let the circumstances affect our focus. I made a decision that day. I decided I would not let anything stop me from achieving my dream.

Believer 16

Can you help us?

Random T

I can show you the way, but it is up to you to take the leap of faith. It is up to you to believe in yourself.

Believer 17
What did you say?

Akeeba
I did not believe them at first. I thought they were pluto.
Donte did not believe them either at first.

Believer 18
Really Donte?

Donte
I wanted to believe them. They seemed like they were telling the truth. They seemed sincere, but their words were farfetched. We meet them at the Space Mall the next day. We became believers after they showed us the secret meeting on Omega 5.

Believer 19
How did you do it?

Gwendolyn
Once they almost knocked my baby out of the sky, it was on.

Believer 20
You are pretty cool for a mom.

Gwendolyn
What are you trying to say? If I was not a mom, I would not be cool.

Believer 20
That is not what I am saying. You are extra cool for a mom. If you were not a mom, you would still be cool.

Gwendolyn

I am just joking with you.

Believer 21

I cannot believe the prompter lied to you.

S Nice

Tell me about it. I could not tell if she was my friend or my enemy.

Believer 23

Why did you keep taunting it?

Mimi

I am not sure. I am just stubborn I guess.

Believer 24

You are very brave your highness.

Nama

They had room service and everything.

Believer 25

That is incredible.

Believer 26

I still do not get it.

Andre

It is simple mathematics. The ten page paper becomes a one page paper. I am not sure how else to explain it. I have tried explaining it to you several times.

Believer 27

It is outside our realm of understand great god of imagination and rhyme. Forgive us. We are not worthy to discuss such godlike concepts.

Believer 28

Great and powerful god of life, how did you acquire your magnificent power?

B4

There is not much to it.

Believer 29

You are too modest oh great and mighty god of life. You can bring life or death by the stroke of your hand.

B4

I just play my bass guitar. That is all I do.

Believer 30

How is he?

Olusayo

How is he what?

Believer 30

You know. How is he?

Olusayo

That is none of your business. With that being said, he is excellent.

Believer 31

I knew it.

Believer 32

Does he ever use Juhada?

Olusayo

If Kevin used Juhada, during sex, he would literally kill me. Juhada is nothing to play with.

Believer 33

When did you fall in love?

Olusayo

I fell in love with Kevin at Camp Kern on Omega 5. I will never forget that day.

Believer 34

It is that simple?

Kevin

You got it.

Believer 35

It cannot be that easy.

Kevin

It is that easy. You can do anything you set your mind to.

Believer 36

Really?

Kevin

First, you have to discover who you are.

Believer 37

How do we do that?

Kevin

You must try new things.

Believer 35

How do we know what things to try?

Kevin

It is different for everyone. You should focus on things that you enjoy. In addition, you should try new and random things.

Believer 35

I do not understand.

Kevin

I will give you an example. Do you like sports?

Believer 35

Not really.

Kevin

Do you like reading?

Believer 35

I love to read.

Kevin

Since you like reading, you should focus on trying new things within that subject. For example, librarians read a lot. Maybe you would enjoy being a librarian. Writing editors read a lot. Maybe you could explore becoming an editor. In virtually every area of life, a person is required to read. However, some occupations require a great deal of reading while others require very little. If you enjoy reading, you can pursue careers and occupations where reading is a major part of the job.

Believer 35

I get it.

Kevin

You are not done. You also need to try things outside your comfort zone. Since you do not like sports, I would recommend that you try a new sport. Try one that you have never tried before. If you do not like it, try baking. If you do not like baking, try acting. Stay focused on your main subject, which is reading, and simultaneously try new hobbies that have nothing to do with reading. By doing this, you will discover who you are.

Believer 37

Can you help me with mine?

Kevin

What do you like to do?

Believer 37

I love working with my hands.

Kevin

That is a start. Do you like math?

Believer 37

Math is okay. I am an average math student.

Kevin

Let me tell you a secret about myself.

Narrator

The believers lean in.

Kevin

I enjoyed elementary school, but it was downhill from there. I hated middle school, high school, and most of my college career.

Believer 37

You are a doctor of law. How did you earn a doctorate if you hated school?

Kevin

I earned it because I discovered who I was. I discovered what I liked to do. I wanted to help people, and practicing law seemed like a good way to do that. I also enjoy public speaking and thinking quickly on my feet. My last year of undergraduate studies, I did a major three sixty. I studied harder than ever. I earned practically straight As my last year in undergrad. To me, it was a necessary sacrifice. I knew I had to learn to like school if I wanted to become a lawyer and help people. The same might be true for you. If you like working with your hands, you might enjoy pursuing mechanical engineering. Even though mechanical engineers work with their hands, they also must have a strong math background. In that case, you might have to make a sacrifice. You might have to commit to learning math in order to pursue your dream of becoming a mechanical engineer.

Believer 37

I see. Thanks.

Believer 36

I have a question.

Kevin

What is your question?

Believer 36

You ultimately decided not to practice law, right?

Kevin

Right. This is why it is important to try new things. During my second year in law school, I started a small security guard company. I learned a lot about myself in the process. I love creating new things from scratch. I love seeing my ideas come to life. I love the challenge of starting a new business. I love the strategy involved in growing a business. I love the heart and drive that is required to build a business. I love the risk taking associated with doing business. Innovation and creativity is encouraged in business. The same cannot be said for the practice of law. Business is a magnificent outlet for my creativity. I continued attending my law school courses, but I did so with a different focus. I knew that I wanted to pursue business rather than law, and that is exactly what I did. The learning process is an ongoing process. I learn more about myself every day. I believe greatness exists in every person, but it is the person's job to find it. I found my greatness, but it did not come easy nor did it come overnight.

Champion

Kevin, Doctor Bonkers asked to speak with you.

Kevin

Promise me that you will search and find your greatness.

Believers

We promise.

Narrator

Kevin follows Champion to the control center and meets Doctor Bonkers.

Kevin

Is there something wrong? Is the acid rain penetrating our force fields?

Dr. Bonkers

Nothing is wrong, and acid rain does not stand a chance against our force fields.

Kevin

I am glad to hear that.

Dr. Bonkers

I wanted to inform you that the Superwarp is now ready for transport. All the kinks have been worked out. If we leave today, we can be in Omega in less than three weeks.

Kevin

I will let everyone know.

Narrator

Kevin walks to the main fortress.

Kevin

Can I have everyone's attention please?

Narrator

The believers gravitate to the front near Kevin.

Kevin

I have some good news and some bad news.

Believer 38

Give us the good news first.

Kevin

The good news is the Superwarp has been unaffected by the acid rain and is now ready for transport.

Narrator

The believers cheer and celebrate.

Believer 39

What is the bad news?

Kevin

The bad news is that we can only transport a maximum of fifty million people. If you are willing to travel Mexican style, we can transport five hundred million people. That would still leave five hundred million people behind.

Believer 39

What if we make several trips?

Kevin

We do not have time for that.

Believer 38

Are you planning to leave us?

Narrator

Believers are beginning to panic. Kevin attempts to calm everyone down. People are crying, praying, fighting, and fainting. Champion gets their attention by shooting his gun in the air.

Gun

Bang!

Champion

Shut your mouths and listen up. You have the floor Kevin.

Kevin

Thank you Champion

Champion

I will be right over here if you need me.

Kevin

We are not leaving anyone behind. We are still working on a plan to safely transport everyone to Omega. We have a few more days to brainstorm. I need everyone to stay together. We are a team. We all believe in seeking a better life in Omega. I promise to get you to Omega even if it means fighting Ebiasaph. You have my word.

Narrator

The believers cheer and celebrate. The celebration turns into another large party. Music, food, dancing, and games flood their underground sanctuary. Out of nowhere, Vincent the Director and Reverend Simon appear.

Rev. Simon

Turn to your neighbor, and say it is time to party.

Believers

It is time to party.

Narrator

The believers say as they turn to their neighbor.

Rev. Simon

Turn to your other neighbor, and say it is time to party.

Believers

It is time to party.

Narrator

The believers say as they turn to their other neighbor.

Rev. Simon

Tap your neighbor on the shoulder, and say party baby party.

Believers
Party baby party.

Narrator
The believers say as they tap their neighbor on their shoulder.

Rev. Simon
Clap your hands.

Narrator
The believers clap.

Rev. Simon
Stomp your feet.

Narrator
The believers stomp their feet.

Rev. Simon
Turn around.

Narrator
The believers turn around.

Rev. Simon
Jump around.

Narrator
The believers jump around.

Rev. Simon
Drop it down.

Narrator
The believers drop it down.

Rev. Simon
Make a frown.

Narrator
The believers make a frown.

Rev. Simon
Slap it down.

Narrator
The believers slap it down.

Rev. Simon
Look around.

Narrator
The believers look around.

Rev. Simon
Make a sound.

Narrator
The believers make a sound.

Rev. Simon
Say holy ground.

Believers
Holy ground.

Rev. Simon
Say solid ground.

Believers
Solid ground.

Rev. Simon
Say hallelujah.

Believers
Hallelujah.

Rev. Simon
Say hallelujah.

Believers
Hallelujah.

Rev. Simon
Say hallelujah.

Believers

Rev. Simon
Say hallelujah.

Believers
Hallelujah.

Rev. Simon
Now make a fist.

Narrator
The believers make a fist.

Rev. Simon
Now punch yourself.

Narrator
The believers punch themselves.

Rev. Simon
Now make a fist.

Narrator
The believers make a fist.

Rev. Simon
Now punch yourselves.

Narrator
The believers punch themselves.

Rev. Simon
Now do your dance.

Narrator
They do their dance.

Rev. Simon
Now strike a pose.

Narrator
They strike a pose.

Rev. Simon
Now do your dance.

Narrator
They do their dance.

Rev. Simon
Now strike a pose.

Narrator
They strike a pose.

Rev. Simon
Touch your toes.

Narrator
They touch their toes.

Rev. Simon
Touch your nose.

Narrator
They touch their nose.

Rev. Simon
Touch your neighbor's nose.

Narrator
They touch their neighbor's nose.

Rev. Simon
Touch your neighbor's toes.

Narrator
They touch their neighbor's toes.

Rev. Simon
Now get loose.

Narrator
They get loose.

Rev. Simon
Now get loose.

Narrator
They get loose.

Rev. Simon
Now get loose.

Rev. Simon
Say amen.

Believers
Amen.

Rev. Simon
Hop on one leg.

Narrators
They hop on one leg.

Rev. Simon
Hop on two legs.

Narrator
They hop on two legs.

Rev. Simon
Hop on no legs.

Narrator
They hop on no legs.

Rev. Simon

Clap your hands. Stomp your feet. Turn around. Jump around. Drop it down. Make a frown. Slap it down. Look around.

Narrator

The believers clap their hands, stomp their feet, turn around, jump around, drop it down, make a frown, slap it down, and look around.

Rev. Simon

Make a sound. Say holy ground. Say solid ground. Hallelujah. Make a fist. Hallelujah. Bunch yourself. Say hallelujah.

Narrator

The believers make a sound, say holy ground, say solid ground, say hallelujah, make a fist, say hallelujah, bunch themselves, and say hallelujah.

Rev. Simon

Do your dance. Strike a pose. Touch your toes. Touch your nose.

Narrator

The believers do their dance, strike a pose, touch their toes, and touch their nose.

Rev. Simon

Get loose. Say amen. Get super loose. Say amen. Get hooker loose. Say amen. Get goose loose. Say amen.

Narrator

The believers get loose, say amen, get super loose, say amen, get hooker loose, say amen, get goose loose, and say amen.

Rev. Simon

Hop on one leg. Say amen. Hop on two legs. Say amen.
Hop on no legs. Say amen hallelujah amen.

Narrator

The believers hop on one leg, say amen, hop on two legs,
say amen, hop on no legs, and say amen hallelujah amen.

Rev. Simon

My name is Reverend Simon. Today, I will be teaching
you how to party like it is nineteen ninety nine.

Narrator

The believers cheer. Meanwhile, Kevin meets with Master
Lee.

Kevin

Do you think I can do it?

Master Lee

What I think is unimportant. You can do anything you set
your mind to. If you think you can do it, you probably can.

Kevin

You said it was dangerous.

Master Lee

I have never attempted anything like it. The scale and
magnitude of what you are proposing is unbelievable, but
do not let that deter you.

Kevin

You are Master Lee. You have protected Omega for
millions of years.

Master Lee

I have never had a reason to attempt what you are proposing. Look at it this way. If you do not try, they will die anyway.

Kevin
You are right.

Master Lee
Of course I am.

Kevin
I was wondering. Can a bearer of Juhada die?

Master Lee
No.

Kevin
How do you know for sure?

Master Lee
I have defended Omega for millions of years, remember?

Kevin
Yeah.

Master Lee
There is a principle that says every action has an equal and opposite reaction.

Kevin
Is that how Juhada is?

Master Lee
No. With Juhada, every action has an unequal and opposite reaction. In other words, every action that comes against you will cause you to produce a slightly stronger reaction.

It may interest you to know that I have fought Ebiasaph before.

Kevin
You have?

Master Lee
Over one million years ago, Ebiasaph declared Judgment Day in Omega. I fought Ebiasaph for three days.

Kevin
Who won?

Master Lee
Neither one of us won. Ebiasaph is the strongest being I have ever fought. However, it became clear to Ebiasaph that he could not kill me. Ebiasaph has not returned to Omega since that fight. You have more power than you realize. The great force of Omega chose you for a reason. Follow your heart.

Kevin
Thank you Master Lee.

Master Lee
Good luck.

VI. Imposters

Champion

What does it say?

Akeeba

It says, “The fourth plague cannot be easily detected. In fact, it cannot be seen at all. It cannot be heard, felt, tasted, or touched. The infection can be discerned only by its effects. You must study the movements of every person, including yourself. You must observe the behaviors of those around you. The fifth plague will be massive earthquakes. The sixth plague will be a comet storm. The seventh plague will be the angel of death. However, the fourth plague may cause the other plagues to be nullified. The fourth plague may cause Judgment Day to come unexpectedly. You have been warned.”

S Nice

What infection?

Donte

How do I know if I am infected?

Kevin

Doctor Bonkers, is there any test that you could run?

Dr. Bonkers

I would not know what to look for.

Kevin

What if you run a general health scan? Maybe you can detect any abnormalities.

Dr. Bonkers

I could do that. Honey, what do you think?

Dr. Bonkers

We could run scans, but it would take weeks to scan one billion people.

Nama

Can you at least scan me? I do not want to be infected.

Dr. Bonkers

That is a good idea. We will scan all of you. We also need to scan Champion, Nneka, and Pastor. They are too essential to be infected.

Narrator

Doctor Bonkers leads the group to the lab.

Dr. Bonkers

I need everyone to change into the white robes on your chair.

Champion

Is this really necessary?

Dr. Bonkers

Yes it is. We need to run full body scans on all of you. We need you healthy.

Narrator

Doctor Bonkers runs full body scans on each member of the group.

Dr. Bonkers

Everything looks normal. We do not see any abnormalities.

Kevin

We need to watch each other's backs. If anyone of us appears sick, we need to notify Doctor Bonkers immediately.

Random T

The book of Judgment Day said to monitor the effects.

Andre

How?

Random T

We need to monitor abnormalities in human behavior. I believe there will be a common abnormality amongst everyone infected. For example, people tend to sneeze when they have a cold. Sneezing is a commonality of people with colds. In the same way, I expect believers to manifest a commonality.

Narrator

The group gets dressed and walks back to the main fortress. They begin observing everyone's behavior.

Mimi

I do not notice anyone acting differently.

Akeeba

There has to be something different about people who are infected.

Olusayo

Everyone appears to be walking and moving in the same way.

Nama

Everyone appears to be eating the same way.

S Nice

Everyone is singing and dancing the same way.

Random T

Wait until tonight. I think that is when the behavior will be different.

Andre

Why do you say that?

Random T

This infection is meant to be elusive. If it is meant to be elusive, it is kind of like a puzzle. If I were designing this puzzle, I would cause the differences to be manifested in a place where no one would expect it. Walking, moving, eating, singing, and dancing are too easy. The differences will be very slight and almost undetectable. Look for a word, twitch, or phrase. Look for sleeping patterns or positions. Look for bathroom break frequency. Look for temperament. If people seem unusually calm, that could be a sign. If people seem unusually agitated, that could be a sign as well. Try to act normal. If they sense they are being monitored, they may try to mask their commonality.

Narrator

The group does their best to be discreet. They talk to each believer as they normally would. They eat, dance, and celebrate with the believers. They play games with the believers. They do this while monitoring them. They each have their suspicions and reconvene to discuss their findings.

Gwendolyn

I have noticed many people yawning.

Random T

Good. What else?

S Nice

I have noticed a lot of people cracking their knuckles. I do not remember them doing that before.

Random T

Nice work. Did anyone else see a commonality?

B4

It is probably nothing, but a guy told me the same thing twice.

Random T

What do you mean?

B4

He told me his birthday was coming up. Two minutes later, he told me the same thing.

Random T

Very clever. That is our commonality.

B4

I must have missed it. What is the commonality?

Random T

The commonality is short term memory.

Champion

We need to isolate those infected.

Kevin

Champion is right. Once you detect an infected believer, I want you to lead them to the front of the fortress.

Champion, I want you to get a team of soldiers ready. I

want them to escort the infected believers to the south fortress. Once we detect all the infected members, we will have Doctor Bonkers treat them.

Narrator

The group executes the plan. The plan is working, but they are running out of time. They need to find a faster way to detect and treat infected persons. They reconvene.

Kevin

If we keep this pace, we will never finish. Any suggestions?

S Nice

Let me try something.

Narrator

S Nice walks into a crowd of believers. She pulls one aside.

S Nice

How many plagues do we have left?

Narrator

There is a ten second pause.

Believer 43

Three.

S Nice

What is my name?

Believer 43

You are the great and powerful Akeeba.

Narrator

S Nice gestures for the soldiers. The soldiers transport Believer 43 to the south fortress.

Kevin
Champion, get your soldiers ready.

Narrator
Kevin goes to the front of the main fortress.

Kevin
Just a minute ago, I told you to go to the south fortress. Why are you still here? Get a move on.

Narrator
Without hesitation, the infected persons proceed to the south fortress. Those who linger are stopped and told to stay. Within two hours, all the infected persons are in the south fortress.

Champion
I will call Doctor Bonkers

Narrator
Doctor Bonkers arrives with scanning equipment.

Kevin
Champion will lead you to the south fortress.

Narrator
When Champion and Doctor Bonkers arrive, they run into a problem.

Champion
Kevin, we might have a problem.

Kevin

What is it?

Champion

The infected persons are gone.

Kevin

We just put them in the south fortress.

Champion

I will have my soldiers check the other fortresses.

Narrator

Champion and thousands of space force soldiers look for the infected persons. They are nowhere to be found.

Champion

I want a perimeter around the Superwarp. Nothing comes in or goes out without my permission. Everyone else, come with me.

Narrator

Champion and his soldiers enter the Superwarp. They begin searching the ship. Everything looks normal.

Soldier

My censor is picking up activity on the deck right above us.

Narrator

Champion directs his soldiers to the upper deck. The soldiers move with meticulous precision.

Soldier

It is coming from the other side of this door.

Narrator

Champion tries to quietly open the door, but it is locked.

Champion
Look out.

Narrator
Champion shoots the door and kicks it open. The room is empty.

Soldier
I lost the signal.

Soldier 2
It looks like someone climbed inside the vents.

Champion
Give me a boast.

Narrator
Champion looks inside the vent. He looks ahead and sees nothing. He looks to the left and sees nothing. He looks to the right and sees nothing. He looks behind and sees the infected persons. Their bodies are facing backward, and their heads are facing forward. It is like the way owls turn their heads completely around.

Infected Person
It has been a long journey.

Narrator
She says with the voice of a demon.

Champion
After them!

Narrator

The soldiers are now in pursuit. Some soldiers jump into the vents. Some soldiers provide cover from below. The infected persons are destroying the Superwarp. They are heading to the solar fusion core. It is the source of all the energy. If they destroy the core, it will take weeks to repair.

Champion

Shoot to kill. I repeat. Shoot to kill.

Narrator

The soldiers fire throughout the Superwarp. Some shots strike the infected persons. Other shots strike the ship controls. By the time the pursuit is over, half the ship is destroyed. Champion reports back to Kevin. B4 resurrects those who had their bodies snatched. Kevin reports back to the one billion believers. The party and celebration stops. Devastation sets in.

Believers

What are we going to do now?

Kevin

We will try to rebuild it.

VII. Final Hour

Narrator

Nneka is holding a church service. They are beginning the praise and worship segment. Gwendolyn, Mimi, Akeeba, Donte, Nama, B4, and Olusayo provide musical support. Millions of believers sing along. They begin praise and worship by singing a classic song titled “There is Leak in This Old Building.”

Mimi

There is a leak in this old building, and my soul

Believers

Has got to move.

Mimi

Gwendolyn

When I can read, my title clear to mansions in the sky. I
will bid farewell to all of my friends. God said he would
wipe my weeping eyes.

Mimi

This old building keeps on sinking, and my soul

Believers

Has got to move.

Narrator

Praise and worship service concludes, and Nneka begins her teachings.

Believer

I know this is the Church of Radical Faith, but what is the Radical Faith religion called?

Nneka

We are called Radicalologists.

Radicalologist

What is the meaning of life?

Nneka

That is a difficult question to answer. Before I attempt to give you an answer, I would like to hear your answer.

Narrator

Radicalologist rubs his mustache.

Radicalologist

Perhaps the meaning of life is different for everyone. I think my meaning of life is to enjoy my family.

Nneka

That is a good answer. Would anyone else like to share?

Radicalologist 2

I think we are part of a social experiment. I think the meaning of life is to be a lab rat.

Nneka

This is good. Anyone else?

Radicalogist 3

I believe we are part of a reality television series called Earth. I think Earth is literally a cable TV channel.

Radicalogist 4

I believe the same thing. I believe the director of the show makes things happen to people to create drama. If everything was perfect, no one would watch.

Nneka

You do not think people would watch if Earth was perfect?

Radicalogist 4

There would be no reason to. People like drama. Our own movies, on Earth, are filled with action packed drama. Someone has to die. Someone's heart has to be broken. Someone has to be the hero, and someone has to be the villain. If any of those things are lacking, no one will watch the movie. We, as humans, are sick in that way.

Nneka

That is an interesting view.

Radicalogist 5

The meaning of life is to kill.

Nneka

You cannot really believe that.

Radicalogist 5

Look at the world we live in. Look at all the violence. Look at the pollution. Look at the universe. Then look at humans. We destroy everything. We have destroyed Earth just like we destroyed Mars. Mars looks like an empty desert wasteland. Ebiasaph aside, Earth was destined for the same outcome.

Radicalogist 6

I believe we are a genetically engineered virus. I believe that each planet is a cell from a large being of some kind. I believe that humans were destined to infect and kill the large being. I believe the sickness and disease that we experience is a doctor trying to kill the human virus.

Nneka

What does the gospel of Radical Faith teach us about the meaning of life?

Radicalogist 7

It teaches us to love and help one another.

Radicalogist 8

According to the gospel of Radical Faith, the meaning of life is to seek knowledge and wisdom.

Nneka

You are both right. The gospel of Radical Faith teaches both those things.

Radicalogist 9

How were we created? If something created us, then who created it? If something created it, then who created that?

Nneka

That is a classic conundrum. I do not have an answer for you. The gospel of Radical Faith does not address that

question. If I may, I would like to add my two cents on the matter.

Radicalogist 9

Please tell us. What do you think?

Nneka

If you study the human race, you will see a pattern. When we do not understand something, we say it is impossible. When we understand something, we say it is possible. We know it is possible to create matter and energy from other energy. We know this because we can see it with our own eyes. Our minds tell us it is impossible for something to be created from nothing because we have never seen it done before. If it is possible for something to be created from nothing, it is possible for “that” to create “it” and for “it” to create “us.” It would also be possible for “us” to create “it” and for “it” to create “that.” We should not foreclose on the idea that such an outcome is possible. We should continue our investigation and analysis. We should continue our pursuit for knowledge. This is what the gospel of Radical Faith teaches.

Radicalogist 10

I am an adamant Radicalogist, but I always wonder why there are thousands of religions.

Nneka

There are thousands of religions because people are uncomfortable saying four simple words. “I do not know.” People would rather fabricate an elaborate story or believe an elaborate story. People are uncomfortable not knowing, for sure, the reason for their existence. Rather than objectively investigating to discover the answer, they fill the gap with religion.

Radicalogist 10

The gospel of Radical Faith is an elaborate story.

Nneka

The gospel of Racial Faith is an elaborate true story. You have witnessed people being resurrected from the dead, the construction of a Superwarp, a talking hummingbird, and a series of plagues which the book of Judgment Day predicted. Soon, you will see Omega with your own eyes. Remember, a religion is more than its stories. Religion is also a way of life. A person may not believe their religion's story, but they may believe their religion's way of life. Thus, there are three kinds of believers: 1) believers in the story and way of life; 2) believers in the story only; and 3) believers in the way of life only. I ask you. What kind of believer are you?

Dr. Bonkers

We do not have enough time.

Kevin

How much time do you need?

Dr. Bonkers

At least two weeks.

Kevin

We do not have two weeks.

Champion

Kevin, you need to see this.

Narrator

Champion leads Kevin to a control room.

Kevin

What happened?

Champion

This is where the body snatchers entered the vents. They must have altered the control panels by mistake.

Kevin

The control panels are thirty feet from the vents. Why would they need to touch the control panels to get to the vents?

Champion

That is why I brought you here. Take a look at this.

Kevin

It looks like someone accessed the communication system.

Champion

Can you upload the last communication?

Kevin

I will give it a try.

Narrator

Kevin attempts to access the communication system, but the system code is jumbled and encrypted.

Kevin

We need Doctor Bonkers.

Champion

I am on it.

Narrator

Champion stops.

Champion

Should I retrieve Doctor Bonkers or Doctor Bonkers or Doctor Bonkers and Doctor Bonkers?

Kevin

Retrieve Doctor Bonkers and Doctor Bonkers only if Doctor Bonkers is not busy with the Superwarp solar fusion drive. If Doctor Bonkers is busy with the Superwarp solar fusion drive, just retrieve Doctor Bonkers.

Champion

What if Doctor Bonkers and Doctor Bonkers are busy with the Superwarp solar fusion drive?

Kevin

If Doctor Bonkers and Doctor Bonkers are busy with the Superwarp solar fusion drive, retrieve both Doctor Bonkers and Doctor Bonkers. Tell them Kevin said it is important.

Dr. Bonkers

What is it Kevin?

Kevin

Can use decode this communication transmission?

Narrator

Doctor Bonkers begins working the code.

Dr. Bonkers

There is certainly a message in here somewhere. We just have to find it.

Narrator

The control panel shoots out sparks of electricity. Doctor Bonkers moves out of the way just in time.

Dr. Bonkers
Be careful honey.

Dr. Bonkers
This control panel is in bad shape.

Dr. Bonkers
Kevin, you are going to have to give us a minute. This could take a while.

Kevin
Okay. Let me know when you find something.

Radicalogist
That sounds hideous.

S Nice
Beauty is in the eye of the beholder. I am sure their gray skin and body marks are very attractive where they come from.

Donte
When we get back to Omega, I am hitting the weights right away. Earth's lack of gravity is causing me to lose my muscle tone.

Nama
Has anyone seen my hair brush?

Gwendolyn
It is in my purse.

Mimi
Kevin, how do you plan to fit everyone in the Superwarp?

Kevin

I am not sure yet.

Mimi

The clock is ticking. The next plague can come any time now.

Kevin

Doctor Bonkers is working on it.

Andre

Nama, stop cheating.

Nama

I am not cheating.

Gwendolyn

You two knock it off.

Narrator

Doctor Bonkers runs into the underground fortress to meet Kevin.

Dr. Bonkers

We found something.

Kevin

You did?

Dr. Bonkers

We have less time than we thought.

Kevin

What do you mean we have less time? We have three more plagues before Judgment Day.

Dr. Bonkers

Not anymore. Follow me.

Narrator

They follow Doctor Bonkers to the Superwarp control room.

Dr. Bonkers

After we decoded the communication log, we found this video.

Narrator

Doctor Bonkers enters the code, and the communication transmission is displayed on a large screen.

V. Speaker

How many people are left?

V. Speaker 2

There are one billion people.

V. Speaker

Where are they hiding?

V. Speaker 2

They are hiding underground. They dug fifty feet beneath the ground and built an underground fortress. The fortress is connected by individual tunnels that begin from spots above the surface. The surface spots are easily recognizable because they are beneath each teepee.

V. Speaker

What else can you tell me?

V. Speaker 2

The people have built a Superwarp. It is ten miles long and twenty stories high.

V. Speaker

How did the people of Earth build a Superwarp? They do not have the technology. I made sure of that.

V. Speaker 2

A group, by the name of Radical Faith, helped them build it.

V. Speaker

Come again.

V. Speaker 2

Radical Faith helped them build it.

V. Speaker

I might have to change my approach.

V. Speaker 2

I do not understand.

V. Speaker

I would like to avoid Radical Faith if possible.

V. Speaker 2

There are only a dozen of them. You have an army.

V. Speaker

Have you met Donte?

V. Speaker 2

Yes.

V. Speaker

Donte is an army all by himself.

V. Speaker 2
Donte is only one teenager.

V. Speaker
That is what he wants you to think. Try fighting him.
Throw a couple of punches. Shoot a few bombs at him.
Then see what happens.

V. Speaker 2
What would you like us to do?

V. Speaker
I want you to destroy the Superwarp. Focus on destroying
the inside controls.

V. Speaker 2
This Superwarp is gigantic. Where should we start?

V. Speaker
Focus on destroying their engines. Every Superwarp has a
warp drive. Find it and destroy it.

V. Speaker 2
The people know you are coming.

V. Speaker
That is not possible.

V. Speaker 2
The book of Judgment Day predicted your arrival. The
people expect you in three days.

V. Speaker
How can a book predict my arrival?

V. Speaker 2

It is not just any book. It is Radical Faith.

V. Speaker

Those books are classified as fiction.

V. Speaker 2

Have you read any of the books?

V. Speaker

I have not had time. I have been busy.

V. Speaker 2

You should read them.

V. Speaker

I am not reading fiction. I only read nonfiction.

V. Speaker 2

Radical Faith was strategically classified as fiction to evade your detection.

V. Speaker

How could they have known?

V. Speaker 2

Do you believe in dream fairies?

V. Speaker

I do not have time for your wild imagination.

V. Speaker 2

I will prove Radical Faith is nonfiction.

V. Speaker

I am waiting.

V. Speaker 2
You received two visitors yesterday.

V. Speaker
Lucky guess.

V. Speaker 2
Do the names Vincent and Johnathon ring a bell?

V. Speaker
How did you...

V. Speaker 2
Does jungle fever ring a bell?

V. Speaker
It must be spies.

V. Speaker 2
It is not spies. It is the work of dream fairies. The dream fairies inspired K.F. McDaniel to write Radical Faith. Radical Faith is one step ahead of you. They know about the plagues before they happen, and they know you are coming in three days.

V. Speaker
What if I come earlier? There is no way they could expect that.

V. Speaker 2
The book of Judgment Day predicted you would say that.

V. Speaker
What?

V. Speaker 2

Look for yourself. Look at “Final Hour” under Archive Five of Judgment Day.

V. Speaker

If the dream fairies predicted everything I would do, then anything I do will be in vain. How does the book of Judgment Day end? Do I win or lose?

Narrator

V. Speaker 2 reviews the book of Judgment Day.

V. Speaker 2

It does not say. Oh shit.

V. Speaker

Oh shit what?

V. Speaker 2

Everything we say is being recorded in the book of Judgment Day. It is being written as we speak.

Narrator

V. Speaker 2 observes his comment being typed into the book of Judgment Day.

V. Speaker 2

This is some freaky shit.

V. Speaker

How am I supposed to beat them if they know everything? I am Ebiasaph. I am the only one entitled to see the future. I am the one and only true god!

V. Speaker 2

Do you still want us to destroy the ship?

Ebiasaph
Yes.

V. Speaker 2
What are you going to do?

Ebiasaph
I am going to think.

V. Speaker 2
Think? I thought you were going to attack.

Ebiasaph
I will attack, but I have to attack surreptitiously.

Narrator
Gwendolyn notices that everything on the video has been recorded in the book of Judgment Day.

Gwendolyn
You guys, look.

Kevin
We need to hurry.

Dr. Bonkers
Do you want me to leave the video on?

Kevin
You can turn it off. We no longer need it.

Narrator
The group races to the underground fortress.

Kevin

Everyone listen up! We do not have much time. I want everyone to turn to the book of Judgment Day. The book is being recorded as we speak. From this moment on, I do not want anyone to speak. I want you all to observe the book of Judgment Day. If you see anything alarming, I want you to notify me. Do not speak. Write it down. Use sign language. Do anything but speak.

Mimi

Kevin, check this out.

Narrator

Mimi shows Kevin the book of Judgment Day. It becomes apparent that only Ebiasaph and his army's words are being recorded. Radicalogists' words are not.

Kevin

Disregard my last comment. It has come to my attention that only Ebiasaph and his army's words are being recorded. Continue to observe the book of Judgment Day. If you see anything alarming, notify me.

Ebiasaph

Maybe I should skip Earth. There are only one billion souls.

Hakeen

You do not think it is worth it?

Ebiasaph

It might not be. I planned to have at least ten billion souls from Earth. The heat wave killed too many people. I expected more people to survive. If Radical Faith was not on Earth, it would make my decision much easier.

Hakeen

Maybe I can bargain with them.

Ebiasaph

What kind of bargain do you have in mind?

Hakeen

We could promise the safe transport of fifty million people. In exchange, they will allow us to consume the remaining nine hundred fifty million people.

Ebiasaph

Make it so.

Champion

Kevin, we have some visitors outside.

Kevin

Who is it?

Champion

It is Hakeen.

Kevin

Who would like to see me reject Hakeen's offer?

Narrator

Radical Faith and the Radicalogists go outside to meet Hakeen. Hakeen is accompanied by one billion angels.

Hakeen

Hello Johnathon.

Kevin

I know you recently read the book of Judgment Day. As such, you know my name is Kevin.

Hakeen
The great Kevin of Omega.

Kevin
What do you want Hakeen?

Hakeen
I know you recently read the book of Judgment Day. As such, you know what I want.

Kevin
On behalf of every Radicalogist present, I reject your offer.

Hakeen
Kevin, be reasonable. You can avoid the blood shed of millions of people. Look at my army of angels.

Kevin
Look at my army of Radicalogists.

Hakeen
Be forewarned. Ebiasaph has never lost a battle.

Kevin
Then Ebiasaph and Radical Faith have something in common.

Hakeen
You can save your people.

Kevin
I have nothing else to say to you. If Ebiasaph wants a war, then so be it. I suggest you get out of here before things get out of hand.

Narrator

C chord plays and holds.

Hakeen

Have it your way.

Narrator

A portal opens in the sky. Hakeen and his army of angels fly into the portal. When the portal closes, there is a large white flash in the sky.

Kevin

Let us go inside.

Narrator

They all meet back inside the underground fortress. The people are anxious. They have been monitoring the book of Judgment Day, and there has not been a single entry since the meeting with Hakeen.

Kevin

If we have to fight on Earth, I am willing to do so. However, I would much rather bring the fight to Omega. In Omega, Radical Faith has virtually unlimited power. Outside Omega, Radical Faith has limited power. We have fought many battles outside Omega, but we are now facing the fiercest enemy in the universe. If we are going to battle Ebiasaph, I would prefer to do it in Omega. I will leave the choice to you. If you want to stay and fight, that is what we will do.

Radicalogist

If what you say is true, I think we should fight them in Omega.

Radicalogist 2
I second that opinion.

Narrator
Nearly every Radicalogist agrees.

Kevin
Then it is settled. We will transport to Omega and avoid Earth's Judgment Day. I want every Radicalogist outside working on the Superwarp.

Narrator
The Radicalogists work day and night. As the book of Judgment Day predicted, the fourth plague nullified the fifth, sixth, and seventh plagues. It has been two weeks, and not a single entry has been recorded in the book of Judgment Day. The Superwarp has been repaired. Kevin is still unsure how he is going to safely transport everyone to Omega. It is a quiet night. Everyone is exhausted. Many Radicalogists lie on the surface floor. They observe the moon in the night sky and imagine what Omega will be like.

Radicalogist 3
I cannot believe there is an entire galaxy up there.

Radicalogist 4
I cannot wait to see it.

Radicalogist 5
Do you think someone, in Omega, is doing what we are doing now?

Radicalogist 3
You mean staring at the night sky?

Radicalogist 5

Yeah. Do you think they are imagining a new galaxy?

Radicalogist 4

I believe so.

Radicalogist 5

Every time I look at the moon and stars, I believe another person (from another galaxy) is doing the same thing.

Radicalogist 3

I believe you are right.

Narrator

The Radicalogists begin entering the underground fortress. Kevin addresses them once more.

Kevin

You should all be very proud. You have built and rebuilt a Superwarp in less than one year.

Narrator

They all cheer.

Kevin

Now that we...

Narrator

There is a sound of a loud trumpet.

Kevin

Everyone run to the Superwarp!

Narrator

The people sprint as fast as they can. They cram in and around the Superwarp.

Kevin

Everyone hold hands! My heart says I can do it, so I am going to try. Whether we live or die, I want you to know that I love each and every one of you.

Narrator

Kevin begins inverting. He generates a forty mile field of energy.

Kevin

I am leaving the gospel of Radical Faith behind. Ebiasaph will no doubt grow another human race on Earth. When he does, I want the people to know what is coming. I want them to know they have hope in Omega.

Narrator

Billions of angels descend upon the group. Kevin looks to the sky.

Kevin

I call out to the great power of Omega. Protect your people on this journey. Give me the power and strength to transport them safely. Let the forces that come against me enable me to react unequally. Billions of angels descend upon me. I need to transport one billion people. I want you to guide us. I want you to protect us. I want you to deliver us. Let your will be done on Earth as it is in Omega.

Narrator

The one billion Radicalogists (and the Superwarp) land on Omega 1.

Donte

Kevin, where are you going?

Kevin

They say Ebiasaph cannot be killed. I want to see if they are right.

G/S/M/O/A/D/N/A/B/R/V/D/D/T/M/B/E

You are not going without us.

Kevin

I figured you would say that.

Olusayo

Champion, can you watch Jadesola until we get back?

Champion

I will protect her like she was my own daughter.

Donte

Kevin, you can take Ebiasaph but Hakeen is mine.

Narrator

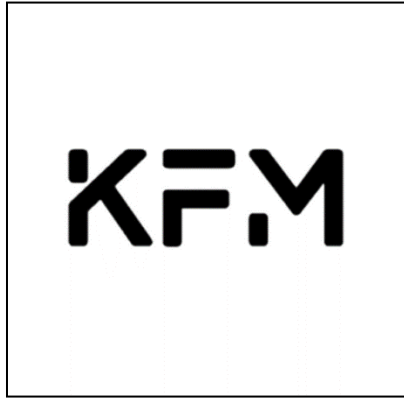

Radical Faith holds each other's hands.

Kevin

This is for the Radicalogists of today, tomorrow, and forever.
